COSYLAB SUMMER SCHOOL

Join Cosylab Summer School ...

... and later become one of us!

📅 10. 7. - 13. 7. 2018

📍 Ljubljana, Slovenia

❓ Technical students

APPLY*

Want to learn how to control an accelerator?

Why develop fad apps for start-ups? Don't miss your chance to control particle accelerators, destroy cancer cells or help discover the universe. Take care of your personal and professional growth during the summer and **join** us at the Cosylab Summer school.

Under the guidance of our mentors, you will be able to test your brain cells and show your creativity working with main software tools for accelerator controls.

*Application deadline is May 18th, 2018.

More information

Are you interested in programming and have a technical or natural sciences background?

To apply, fill out the application **form** or send **an email**: you will need a short motivational letter and a CV.

For more information or questions, contact us at **summer.school@cosylab.com**
