All incoming and outgoing activities supported within this call are coordinated and administered by the University of Osijek.

Mobility activities refer to:

**Teaching activity** supports teaching staff to teach at a selected partner HEI in a specific academic discipline.

**Training activity** supports professional development of HEI teaching and non-teaching staff in the form of scientific work or training events abroad (excluding conferences).

**Studying activity** supports students in their individual learning and the award of ECTS credits upon successful completion of the activity.

The **overall objective** of individual mobilities to be realized within this project call is intensification of international cooperation, development of institutional capacities for international mobility, internationalization of curriculum, strengthening of social dimension in international exchanges, strengthening of international partner network, and development of professional scientific and teaching skills with sustainable impact on long-term cooperation activities.

Financial supports are awarded to teaching and non-teaching staff members of the University of Osijek and to teaching and non-teaching staff members and students of the participating **partner universities** located in the above-listed partner countries.

Individual staff and student mobilities are to be realized according to the **Mobility Flow Plan**. Within this call, applicants can submit one application for one mobility activity.

Teaching and non-teaching staff members have to be employed by the sending HEI throughout the whole process of application and realization of mobility. Students need to be enrolled in a regular study program organized by the sending University and have to hold a student status during the whole process of application and realization of mobility.

**Eligible period for realization of mobility of STAFF approved within this call is:**

**1 December 2023 – 31 July 2026**

**Eligible period for realization of mobility of STUDENTS approved within this call is:**

Within this project call, staff can spend a teaching or training period abroad with financial support, in duration specified in the **Mobility Flow Plan**.

Students are invited to the receiving University of Osijek for studying in duration of **one semester during the academic years 2023/2024, 2024/2025 and 2025/2026 (maximum 5 months)**.

Longer stays are possible only without financial support. The grant for staff and students will provide funding for maximum two additional days of travel (one before and one after the mobility).

Once started, the mobility activity cannot be interrupted.

The referential amounts awarded as a mobility grant to each selected participant are consisting of **daily or monthly allowance (per diem)** and **travel cost** calculated by the tool EC Distance Calculator defined according to distance band from the place of official seat of the sending university to the place of official seat of the receiving university.

Signed **Erasmus+ interinstitutional agreement between the University of Osijek and the partner HEI** is a precondition for individual student and staff mobility realization between UNIOS and each partner HEI. In this interinstitutional agreement, the sending and receiving institutions agree on the options for staff mobility and for student mobility. By signing the inter-institutional agreement, Partner HEI agrees to comply with all principles and rules of the Erasmus+ programme. The Erasmus+ inter-institutional agreement has to be in force before the beginning of each mobility period.

Within the application process, all applicants (staff) need to prepare a **Mobility agreement for teaching** if applying for the teaching activity, or **Mobility agreement for training** if applying for the training activity. Students will prepare **Learning Agreement for studies**. Relevant agreements need to be approved / signed by the receiving HEI before the application to this call. Proposed mobility agreement needs to be in line with specific mobility flow and corresponding subject area (as stated in the Mobility Flow Plan). Proposed mobility agreements will be evaluated by the UNIOS Committee for Erasmus+ mobility programme. If approved for funding, changes in mobility agreements will be approved only exceptionally. If changes to the approved Mobility agreements will occur with respect to realization of activities and objectives, each participant needs to report those changes to the University of Osijek's assigned project coordinator.

Extension of mobility will be possible only if additional financial means will be provided, or in the zero-grant status, if additional financial means will not be available.

#### **\*STUDENTS WITH FEWER OPPORTUNITIES**

Staff and students with special needs selected for Erasmus+ mobility within this call are entitled to apply for additional financial support. Participants with special needs are a category of staff and students, whose physical, mental or health conditions presuppose participation in mobility activity with increased costs of living or travelling. Additional financial support is awarded by the Agency for Mobility and EU Programmes Zagreb, Croatia, on a basis of separate application form, which will be communicated to selected staff or students with special needs after the completion of the selection process.
