Overall Broader Objective

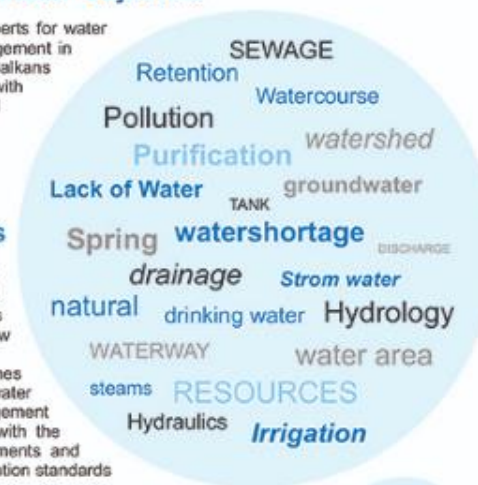

Education of experts for water resources management in the Western Balkans (WB) in line with the national and EU policies.

Specific Objectives

Improve the level of competencies and skills in HEI's by developing new and innovative master programmes in the field of water resources management (WRM) in line with the Bologna requirements and national accreditation standards by October 2021.

Design and implement seven new and up-to-date laboratories in WB partner HEIs in cooperation with EU project partners by November 2019.

Develop and implement LLL courses for the water sector in line with EU Water Framework Directive by January 2021.

Osnovna misija ovog projekta je edukacija stručnjaka za upravljanje vodnim resursima na Zapadnom Balkanu, u skladu sa nacionalnim i politikama Evropske Unije. Konzorcijum ovog projekta čini ukupno 16 Univerziteta sa prostora Zapadnog Balkana i Evropske unije i dvije neakademske organizacije, Vode Vojvodine i Regionalni vodovod Crnogorsko primorje. Koordinator projekta je Građevinsko-arhitektonski fakultet Univerziteta iz Niša.

Ukupna suma opredeljena za Univerzitet Crne Gora – 87 055.00 eura , u trajanju od 36 mjeseci . Do sada je približno realizovano 75 000.00 eura prema specifikaciji troškova koji su dati u finansijskom planu projekta (troškovi osoblja, troškovi putovanja, troškovi boravka, troškovi opreme, troškovi štampe).

Osnovi ciljevi projekta mogu se sagledati kroz tri osnovne grupe:

- Pобољшanje nivoa kompetencija i vještina u visokoškolskim ustanovama kroz **razvoj novih i inovativnih master programa u oblasti upravljanja vodnim resursima**, u skladu sa Bolonjskom deklaracijom i sa nacionalnim standardima za akreditaciju;
- **Osmišljavanje i formiranje sedam novih, najsavremenijih laboratorija** na partnerskim visokoškolskim ustanovama sa Zapadnog Balkana, u saradnji sa partnerima na projektu iz EU;
- Razvijanje i implementacija **kurseva za cjeloživotno obrazovanje za sektor voda** u skladu sa Okvirnom direktivom EU o vodama.

U sklopu SWARM projekta Građevinski fakultet Univerziteta Crne Gore je inovirao već akreditovani Master program Građevinarstvo – Infrastruktura na modulu Hidrotehnika, uključivanjem novih sadržaja u dijelu laboratorijskih vježbi. Ovu inovaciju omogućila je **nabavka laboratorijske opreme i formiranje nove laboratorije** u kojoj je moguće pokazati osnovne postulate u oblasti hidrotehnike.

Laboratorijska oprema za mehaniku fluida: Osnovni modul za eksperimente u mehanici fluida

Laboratorijska oprema za ispitivanje principa hidrodinamike: Bernulijev princip

Laboratorijska oprema za ispitivanje protoka u cijevima:
Poređenje različitih metoda merenja i određivanje koeficijenta protoka

Laboratorijska oprema za ispitivanje tečenja u otvorenim i zatvorenim kanalima.

Laboratorijska oprema za simulaciju tečenja podzemne vode.

Kao jedan od ključnih programa projekta prepoznat je rad na razvoju obuka za profesionalce u sektoru voda - **cjeloživotno obrazovanje stručnjaka u ovoj oblasti.**

Zajedničkim radom sa partnerima i analizom potreba u vodnom sektoru, su identifikovati ključni nedostaci u znanju i organizacijama poslovanja u sektoru voda. To je bio osnov za razvoj programa obuke za profesionalce u sektoru voda, koji je pripremljen od strane članova konzorcijuma sa univerziteta Zapadnog Balkana a revidovan od partnera iz EU.

Na osnovu sprovednih anketa među zaposlenim u sektoru voda u zemljama Zapadnog Balkana (ukupno 1136 ispitanika) izabrane su specifične oblasti u upravljanju vodnim resursima, za koje su pripremljeni programi obuke, imajući u vidu specifičnost svake partnerske zemlje sa Zapadnog Balkana. Izabrani nastavnici iz visokoškolskih ustanova sa Zapadnog Balkana pripremili su i sproveli programe treninga kroz trodnevnu obuku uz učešće zainteresovanih stručnjaka iz sektora voda, predstavnika vladinih tela i drugih zainteresovanih strana (30 učesnika po obuci)
