Description

The University of Montenegro (UoM) is the biggest and the only public university in Montenegro, gathering 80% of student population in the Country. It consists of 19 faculties and three research institutes, and covers technical, natural, social sciences and fine arts.

The University of Montenegro invites motivated candidates to apply for 3 open postdoctoral positions, as a part of its Internationalisation Strategy and goals of becoming leading innovative research institution in the region.

Three selected candidates will have the opportunity for: research stay and in students' supervision and lecturing (optionally).

The preferred scientific areas for 3 open Postdoctoral Researchers positions are principally (but not limited to):

- Natural Sciences, Electrical Engineering, Computer Science, Computer Engineering, Signal Processing, Cyber Security, Mechanical Engineering, Civil Engineering, Biotechnology, Agriculture

- Economics, Decision Support/Statistics, Political Science, Law, International Relations, Languages and Literature, Sociology, Anthropology, Philosophy, Tourism.

We seek highly qualified and motivated individuals with enthusiastic attitude towards high-quality research to work as a Postdoctoral Researcher. The Postdoctoral Researcher's principal task is to conduct a high-quality and multidisciplinary research. Teaching duties of the position are limited to about 10% of working hours and mainly related to Master's or PhD's programs.

The positions are for a period of 1 year, with a mid-term review by the end of the first 6 months.

In the application, the candidate should clearly state the theme(s) his/her research would focus on and indicate how it is in line with the ongoing research of the selected research group.

Research environment

The successful candidates will be able to use all research facilities and infrastructure available at the University of Montenegro, including various laboratories and equipment's depending on the research area.

Appointment conditions

- Arranged and covered accommodation in one of the University's units/apartments
- Arranged and covered dining card for the use in the students restaurant
- Scholarship for additional living expenses - 1000 Euros per month

Qualifications

Applicants must have:

- 1) Completed doctoral degree in a related field in the last 7 years,
- 2) Proven strong background in the research area s/he is applying for including a strong publication record.
- 3) Ability to apply and implement research projects.

Fluent English is required.

How to apply

Application must include following:

- *Motivation Letter*, including full contact information (max one A4 page)
- *Detailed research plan*, including a rationale for the research topic, detailed description of the activities, expected results and contributions for the area or topic in accordance with the research areas of the selected research group
- *CV*, including publications and contact information for 2 reference persons (max three A4 pages)
- *Summary of the Doctoral Thesis* (max one A4 page)
- *Certified copy of doctoral degree certificate and its translation*, if the originals are not in English or in one of the languages in official use in Montenegro

All materials should be submitted in English.

Where to apply

The application package should be sent to the Scientific Board of the University of Montenegro, responsible for the applications evaluation and selection process, through the email naucniodborucg@ucg.ac.me.
