Open position for a young researcher (M/F) in the field of computer science in Slovenia

The Faculty of Information Studies in Novo mesto (FIŠ) is a public education and research institution that has wide expansion of mutual cooperation with similar organizations in Slovenia and abroad.

We offer a position for three-year full employment to a good young hard-working student for doctoral research starting on October 1, 2020. The prospect candidate is expected to obtain a PhD by the end of the three-year period. The activities involve the preparation of methods in the field of graph modelling and machine learning. The goal is to develop a decision support model that can be used to model and forecast the labour market. All the necessary information is available at the Faculty of information studies in Novo mesto, Slovenia, (www.fis.unm.si) including access to the currently most powerful supercomputer in Slovenia.

The candidate should fulfil the following required conditions:

- Completed 2. Bologna degree (or equivalent) in Computer Science or Mathematics or Physics or Electrical Engineering;
- An average grade of at least 8.0;
- Mandatory experience with Python and / or Java programming language;
- Excellent knowledge of English language;
- Excellent social skills.
- The candidate has to be up to 28 years old.

The candidate will be fully employed between 1.10.2020 and 30.9.2023.

If you are interested, send your CV to biljana.mileva@fis.unm.si until 30.6.2020. All interested candidates will undergo an interview in English language.
