D. OCENA REZULTATA NAUČNOG I ISTRAŽIVAČKOG RADA

Dr Aleksandar Karamarković je priložio 320 stručno-naučnih publikacija, od čega je 134 objavljeno »extenso« u sledećim časopisima: 26 radova štampano je u časopisima sa JCR liste, 1 »letter to the editor« u časopisu indeksiranom u JCR (kumulativni IF-26.748), 39 radova u časopisima indeksiranim u MEDLINE-u, 42 rada u časopisima koji nisu indeksirani u prethodno navedenim bazama podataka, kao i 3 rada koji su štampani u celini u zbornicima međunarodnih skupova i 1 rad u celini u zborniku nacionalnog skupa. Pored toga, 125 radova štampano je u vidu rezimea sa međunarodnih kongresa, 53 rada štampana su u vidu rezimea sa nacionalnih kongresa. Kandidat je objavio udžbenik "Resekciona hirurgija jetre" (sa Clom hirurška operativna tehnika-video) u izdanju Zavoda za udžbenike, Beograd, 2012 (Odlukom Veća : specijalističku nastavu Medicinskog fakulteta u Beogradu br. 17/36-40/12 od 10.05.2011. god. prihvaćeno kao udžbenik za posle diplomsko usavršavanje lekara), kao i 2 poglavlja u dva fakultetska udžbenika (HIRURGIJA, URGENTNA MEDICINA), 4 poglavlja u monografijama, kao i samostalnu monografiju "Intra-abdominalne Infekcije i Septični Sindrom u Abdominalnoj Hirurgiji" .

Dr Aleksandar Karamarković ima široko stručno obrazovanje kao i interesovanje. U okviru stručnog rada na Klinici za Urgentnu Hirurgiju KCS, radovi su posvećeni mnogim poglavljima iz abdominalne hirurgije. Značajan broj radova odnosi se na intra-abdominalne infekcije i abdominalnu sepsu, odnosno obradu konzervativne i hirurške aspekte njihovog lečenja. Naročito je apostrofiran značaj planiranog relaparotomija sa primenom ETIZIP-a u agresivnom hirurškom lečenju teških peritonitisa, u čemu Dr Karamarković ima bogato iskustvo. Jedna od tema istraživanja iz ove oblasti bavi se poremećajima u plazmatskih kaskadnih sistema u abdominalnoj sepsi, sa posebnim osvrtom na poremećaj aktivnosti Proteina C i njegov dijagnostički i prognostički značaj kao biomarkera sepse. Sva ova klinička i istraživačka iskustva rezultirala su objavljivanjem samostalne monografije pod nazivom "Intra-abdominalne infekcije i septični sindrom u abdominalnoj hirurgiji", 2002. godine, a potom i publikovani 2005. u vodećem svetskom časopisu *World Journal of Surgery* (citiran 28 puta u radovima eminentnih svetskih autora).

(blasti hirurške infekcije i sepse). Problematika akutnog pankreatitisa, takođe je značajno zastupljena u radovima dr Karamarkovića. Pored toga, kandidat pokazuje interesovanje za uvođenje novih procedura u hirurško lečenje akutnog pankreatitisa. Deo publikovanih radova odnosi se na urgentnu hiruršku problematiku, kao što su hirurški tretman krvarenja iz digestivnog trakta, kao i hirurško zbrinjavanje kompleksnih povreda jetre, pankreasa i ostalih abdominalnih organa, uz akcenat na ulogu i značaj planiranih relaparotomija, "otvorenog abdomena" i "damage control" hirurškog pristupa u teškoj abdominalnoj trauma i abdominalnoj sepsi.

Radovi novijeg datuma odnose se na oblast hepato-bilijarne hirurgije i rezultat su ličnog iskustva autora u izvođenju anatomskih resekcionih zahvata na jetri u lečenju benignih i malignih lezija. Posebno je obrađena onkološka hepato-bilijarna problematika kao što su: primena intraarterijskog port-katetera u arteriju hepatiku radi lokoregionalne hemioterapije kolorektalnih metastatskih lezija u jetri, prognostički faktori kod resekcija jetre u lečenju metastaza kolorektalnog carcinoma, hirurgija u "dva vremena" kod iznapredovalih tumora jetre, sinhrona resekcije jetre i tumora kolo-rektuma, anatomski i hirurški aspekti intrahepatične holangio-derivacije sa bilijarnim vodom za treći segment jetre u tretmanu neresektabilnih malignih tumora proksimalnih žučnih vodova, kao i hirurška tehnika resekcija jetre sa minimalnim perioperativnim gubitkom krvi, korišćenjem "glisonskog" pristupa suprahilarne vaskularne kontrole. 2012. godine objavio je udžbenik "Resekciona hirurgija jetre" (sa CD-om hirurška operativna tehnika-video) u izdanju Zavoda za udžbenike Beograd (Odlukom Veća za specijalističku nastavu Medicinskog fakulteta u Beogradu br. 17/36-40/12 od 10.05.2011. prihvaćen kao udžbenik za poslediplomsko usavršavanje lekara).

Dr Aleksandar Karamarković je aktivno uključen u izvođenje naučno – istraživačkih i stručnih projekata koji su finansirani od strane Ministarstva za nauku Republike Srbije u okviru Osnovnih istraživanja. Kao predavač po pozivu Dr Aleksandar Karamarković je pedeset i pet (55) puta aktivno učestvovao na međunarodnim Kongresima i Poslediplomskim kursevima kao i na stručnim i naučnim skupovima u inostranstvu.

3. OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO-NASTAVNOG PODMLATKA
