Stakeholder Dialogue

Brain Circulation in Europe

EURAXESS

Taking stock of transnational collaboration to
address mobility challenges

John Baarli - RNC
Miroslav Malinovic - UBL

A framework is the key to the future

EURAXESS – We help each other to help others!

EURAXESS state of play

- 42 European countries
- EURAXESS Worldwide in ASEAN, Latin America and the Caribbean, China, India, Japan, North America
- 550+ EURAXESS support centres for researchers
- 70+ EURAXESS career development centres

PORTAL

- 70,000+ job vacancies listed annually
- 400+ funding offers at EU and national level, travel grants and fellowships
- 800+ hosting posts

We are facilitators

EURAXESS is in need of a framework

- To be able to meet the future
- To be able to plan better
- To be able to provide services with high quality
- To reach out to all our target groups
- To be able to strengthen the network
- To empower the BHOs
- To plan better and maximise the benefits from the Performance Assessment Tool (PAT)
- To become the best network possible

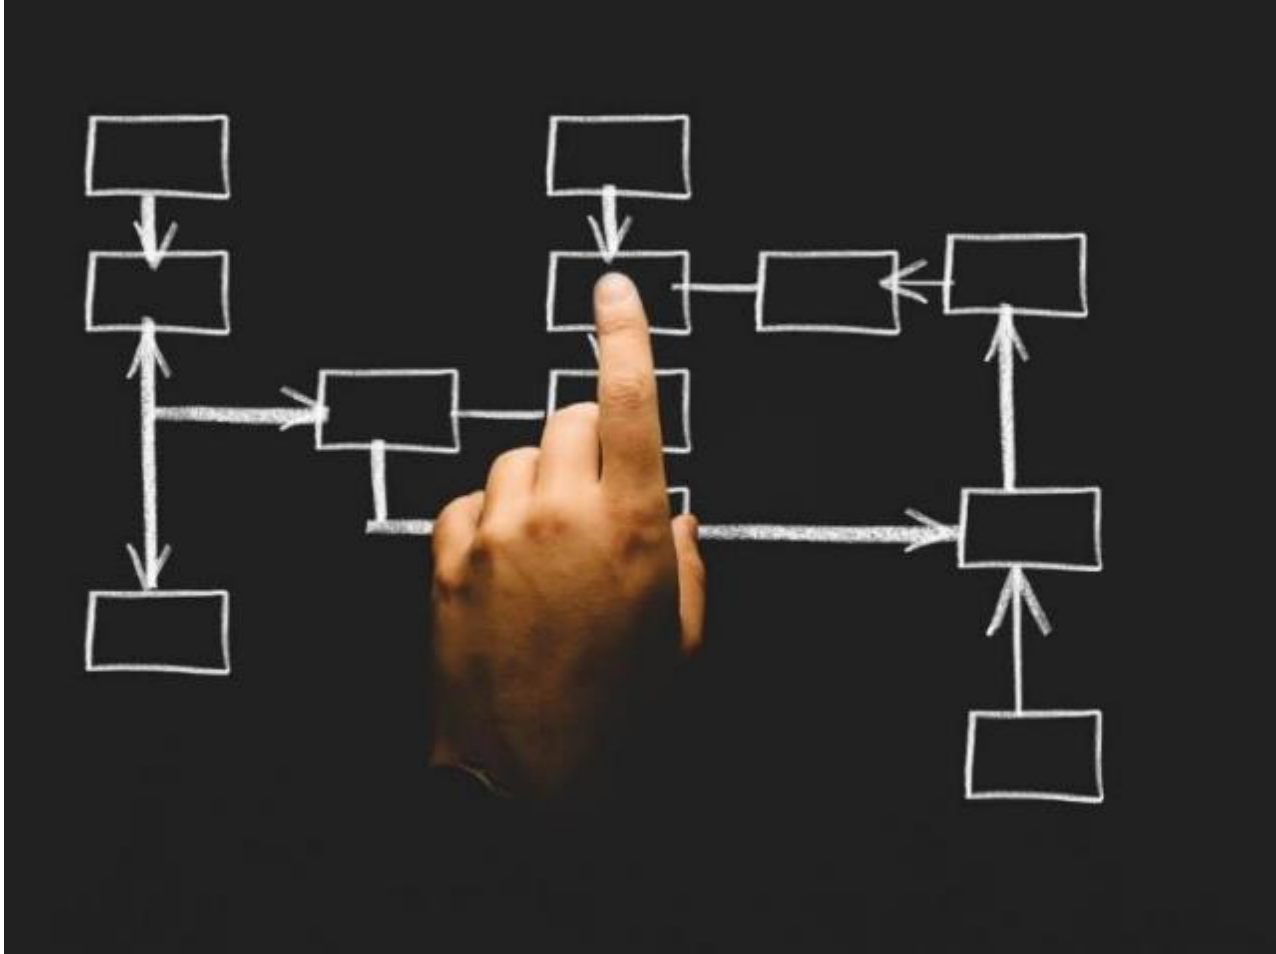

The EURAXESS NETWORK shall perform optimally

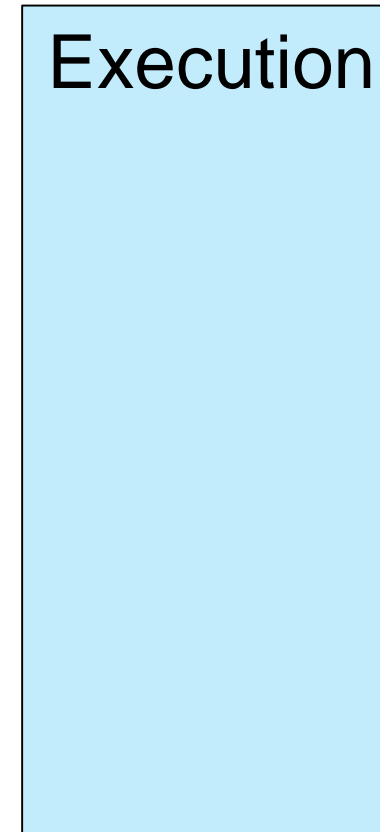

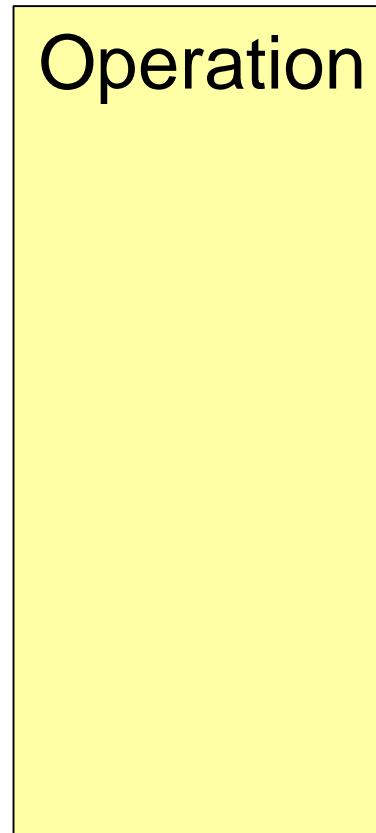

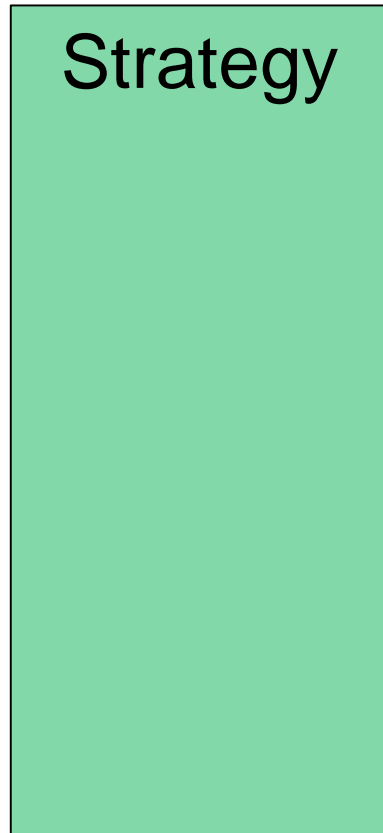

What kind of framework?

- A framework which makes sense to use at all levels;
 - the European level
 - every national level
 - every local level and centre
- A framework which mirrors our challenges and help us understand how to optimise our performance
- A framework which is based on common knowledge and used in many fields from promotion to management

Doing what is needed at the right time

A framework with three pillars

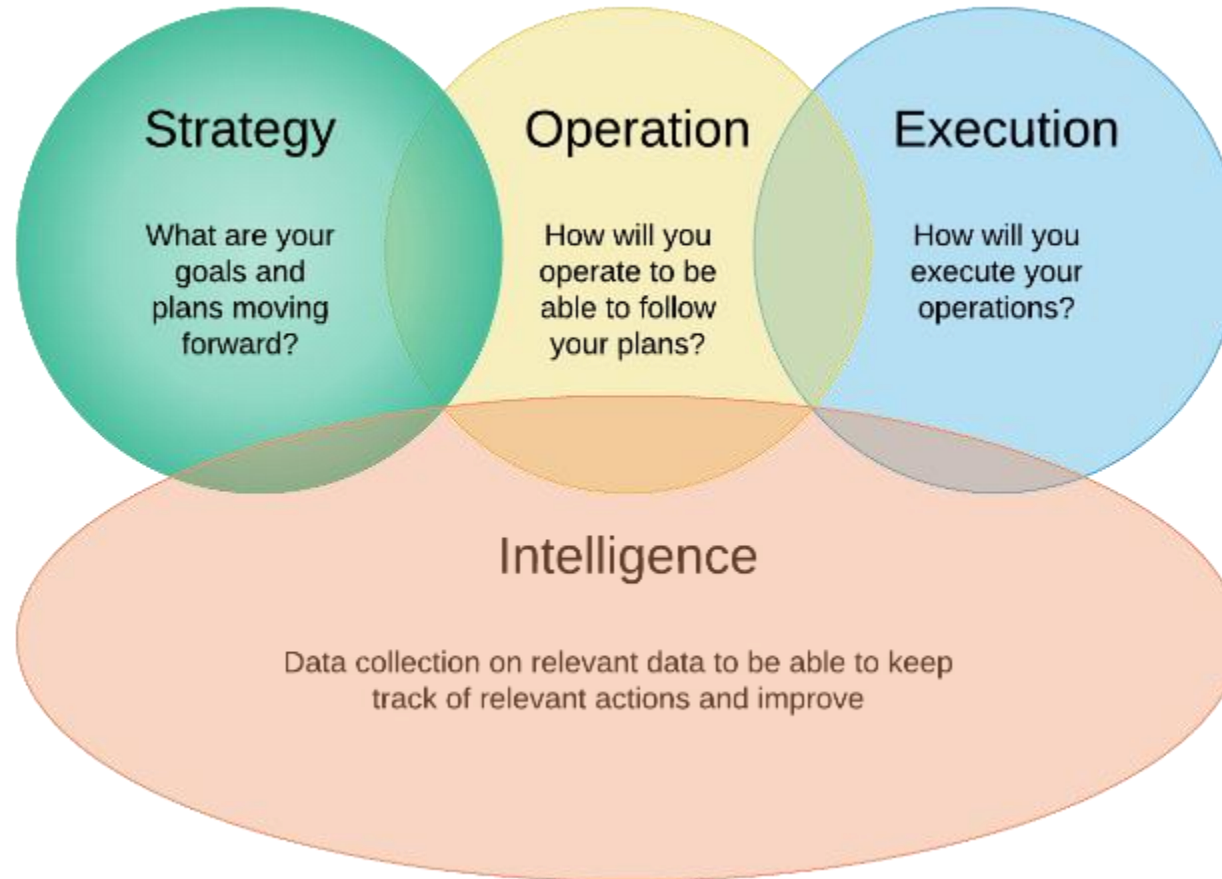

And another dimension – the quest for knowledge

Intelligence

A framework to help us move forward

A framework for the future

Diversity is the key, let us embrace it

Why is it necessary?

- Because we all need to think strategically about our services
- Because we all need to think on an operational level to be able to provide our services
- And we need to have concrete action plans (and instruments) to perform and provide our services

To be able to do all that without hassles...

The importance of data

- Data collection is the key! We need to:
 - know what works and what don't
 - know if we are improving or not
 - target our goals better
 - Etc.

We are a network of possibilities

EURAXESS - We grow stronger together!
