MathSciNet via EBSCOhost

MathSciNet® is an electronic publication of the American Mathematical Society (AMS) offering access to a carefully maintained and easily searchable database of reviews, abstracts and bibliographic information for much of the mathematical sciences literature. Over 100,000 new items are added each year, most of them classified according to the Mathematics Subject Classification. Continuing in the tradition of the paper publication, *Mathematical Reviews* (MR), which was first published in 1940, expert reviewers are selected by a staff of professional mathematicians to write reviews of the current published literature; over 40,000 reviews are added to the database each year.

M.B. Duignan & I. Pappaleore (2019): Visitor (im)mobility, leisure consumption and mega-event impact: the territorialisation of Greenwich and...

Focusing on the London 2012 Olympic Games, we investigate the impact of mega-sport events' spatial transformations on visitor mobility, local leisure consumption and resulting small business trade. Olympic territorialisation, we argue, is a highly contentious and vitally important aspect of leisure studies warranting on-going and further examination. Our case study draws on 43 in-depth interviews with local authorities, governmental and non-governmental project actors, and s...read more
