

GROŽNJAN SUMMER SCHOOL OF ARCHITECTURE

Aug 5-13 2023

FINDING KRONOS

WHAT CAN WE LEAVE FOR THE 22nd CENTURY?

I want you to design the oldest architecture for the 22nd century. There are many divinations about oldness, but unlike trees or fossils the age of architecture is too young for radiocarbon dating. There are only stories written by human beings. However, history is not a science but memorandum, memorandum is nothing more than data, and data is nothing more than a result.

We want to discuss the future, not the past.
