

COST ACTION

SHIINE

Multi-disciplinary innovation for social
change

Dr. Katri-Liis Reimann, Associate professor, Tallinn University,
Estonia kllepik@tlu.ee

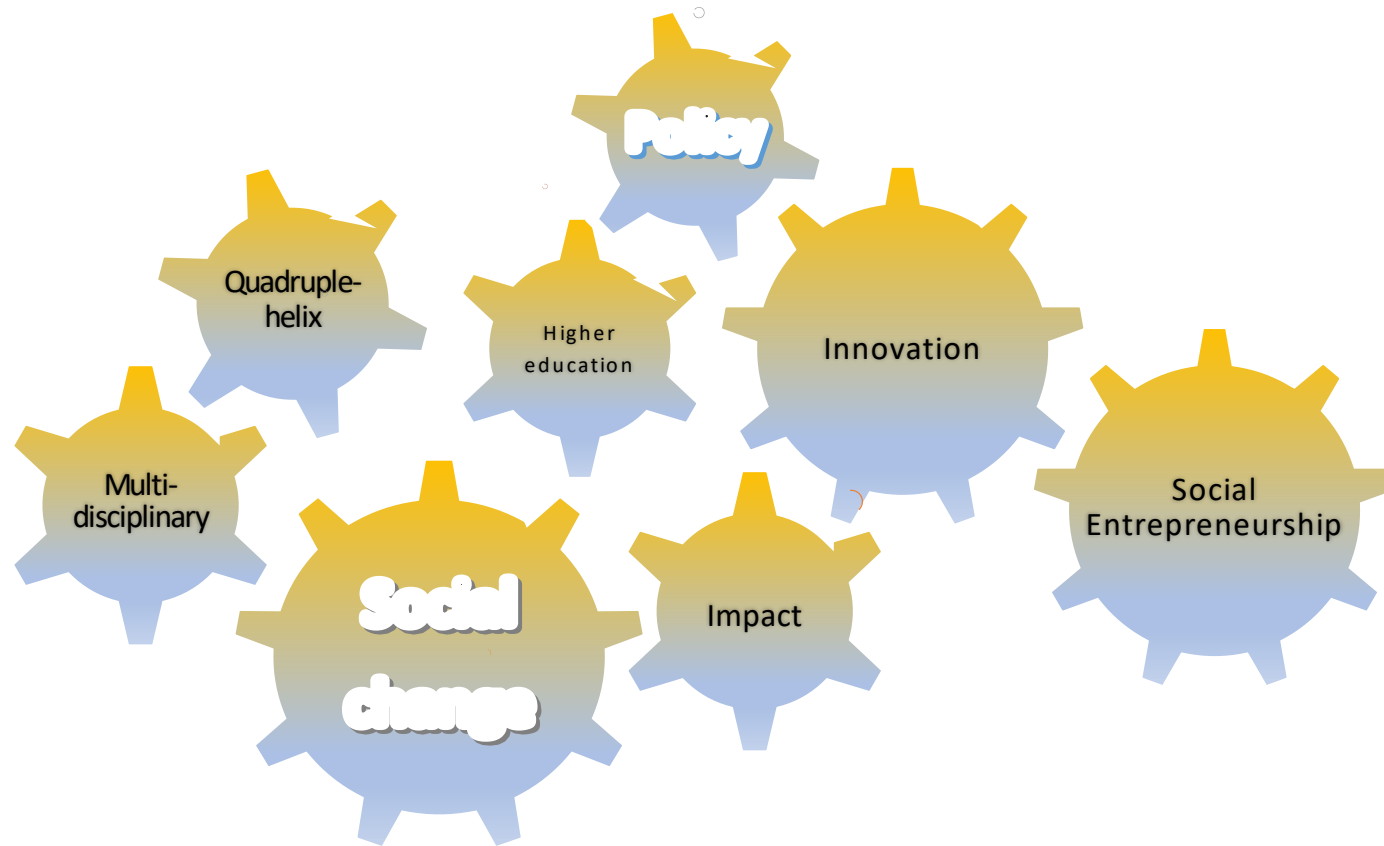

Why?

- “The project sounds very promising indeed, developing a framework for social enterprise and social innovation education across higher education institutions is a long-awaited endeavor” Policy analyst, European Commission

SHIINE

Challenge

- The aim of this Action is to demonstrate, through the adoption of MDI methods, how we can respond to social problems with a design-led approach which has a problem-oriented ethos, supporting positive social change and the development of international public policy discourse.

Topics to research

- How can HEIs stimulate and enable Multi Disciplinary Innovation (MDI) and the development of efficient, equitable and evidence-based public policies?
- How can HEIs equip their students (and other learners) with the knowledges and skills necessary to engage with and respond to 21st century challenges and opportunities?
- How can various stakeholders (academia, private and public sector institutions and end-users) be more actively engaged in developing changes in education to support MDI?

Research Coordination Objectives

- Coordination of gathering information about the ways to prepare graduates beyond disciplines using collaborative, generative, problem-solving approaches;
- Scope the nature of Higher Education- led Multi-Disciplinary Innovation (MDI) in promoting Social Entrepreneurship (SE) and Social Innovation (SI);
- Development of a Pan-European Public Sector Innovation Lab and supporting agencies that develop public policy;
- Development of understanding principles and practices of design-led entrepreneurship; Input for partners' network on MDI opportunities and tools

Capacity-building Objectives

- Fostering knowledge exchange and development of joint research agenda in the MDI for public sector Acting as a transnational platform with Pan-European Public Sector Innovation (ePSI) Lab facilitating multi-stakeholder engagement and co-creation processes linking local, national and international levels with the use of relevant methods and toolsActing as a transnational platform with Pan-European Public Sector Innovation (ePSI) Lab facilitating multi-stakeholder engagement and co-creation processes linking local, national and international levels with the use of relevant methods and tools.
- Analyse HEIs' role in creating social change, transformation and impact. Innovations such as corporate volunteering, social philanthropy and Social Investment Bonds will be examined.
- Acting as a transnational platform with Pan-European Public Sector Innovation (ePSI) Lab facilitating multi-stakeholder engagement and co-creation processes linking local, national and international levels with the use of relevant methods and tools.
- Develop a Pan-European Public-Sector Innovation Lab integrating education programme(s) into the fabric of the lab's operations and supporting agencies that have a role in responding to and developing public policy.

WG 1 Design-led approaches to SI and SE	Month
Policy review of MDI, SE and SI	30
International review of Design-led tools to support the Action	30
Action website interlinked with the ePSI	5
Co-created awareness raising and learning tools in the (ePSI)	30

WG 2 HEI, Social change and transformation	Month
Review of the existing HEI policy labs and relevant input for the ePSI	35
Review of the components of the SE eco-system and how it relates to HEI	35
Analysis of innovative approaches adopted by the voluntary and community sector in supporting social change, transformation and impact	35
Review on access to financial models including social finance, social investment bonds, corporate volunteering, social philanthropy, and micro-finance	35
Analysis of innovative contribution of HEI's partnerships in supporting social change, transformation and impact	35

WG 3 ePSI responding to and developing public policy.	Month
Overview of appropriate key thematic social challenges to be addressed in the the Pan-European Public Sector Innovation (ePSI) Lab	41
Establishment of the Pan-European Public Sector Innovation (ePSI) Lab for social challenges with a sustainable working model	41
Working paper on the ePSI and a model of governance supporting key policy-makers and supporting agencies that have a role in responding to and developing public policy	41

WG 4 Quadruple-helix ecosystems, impact and dissemination	Month
Co-created design-led tool-box used for the Pan-European Public Sector Innovation (ePSI) Lab	47
A roadmap for quadruple-helix innovation ecosystem partners to maximize the impact in terms of sharing practice, transfer knowledge and learning of multi-disciplinary innovation among stakeholders	47

Leadership roles

- Working Group Leaders:
 - WG1.Design-led approaches to Social Innovation (SI) and Social Entrepreneurship (SE)
 - WG2.Higher Education Institutions (HEI), Social change and transformation
 - WG3.Pan-European Public-Sector Innovation Lab responding to and developing public policy
 - WG4 Quadruple-helix ecosystems, impact and dissemination
- Short Term Scientific Mission (STSM) Coordinator
- Training Schools Coordinator
- Inclusiveness Target Country Grant Coordinator (ITC GC)
- Science Communication Manager

Grant Period 1

November 2019-April 2020

- MC meeting together with the Core Group meeting and WG meetings

January 8-10, Serbia???

- 1 STSM

who, where and when?

- 2 dissemination conferences for core team members to attend
where and when?

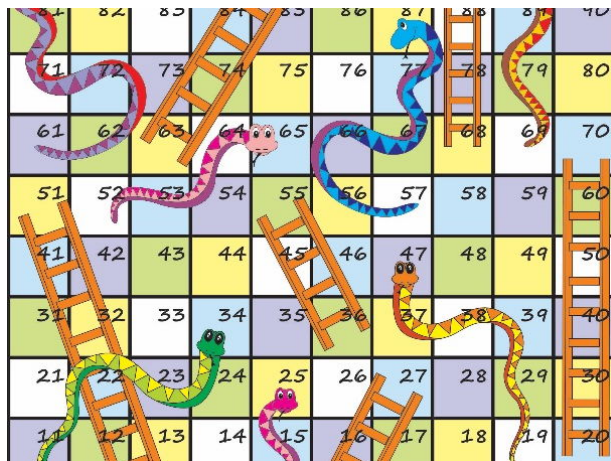

Dissemination

Stakeholder type	Purpose	Means
Research community	To encourage academics to provide their views in ePSI lab and co-create solutions for social issues	
Policy-makers	<ul style="list-style-type: none">• To ensure the necessary political support and input to public policies• To encourage them to participate in cocreation activities and bring about social changes	

Stakeholder type	Purpose	Means
Civil society and business organisations	<ul style="list-style-type: none"> • To encourage civil society and business organisations (e.g. the Society of Evidence Based Policing, the BSC • Policing Network; European Society of Criminology, associations of SEs and businesses, think-tanks, policy labs, etc.)to co-create solutions to societal problems • To encourage civil society to lobby policy-makers to consider the recommendations made and implement solutions 	
EU level institutions, EU member states and other EU projects	<ul style="list-style-type: none"> • To draw the attention of partners in other EC projects to the activities of the Action to further the existing contacts, widen ITCs networking scope and potential, open up new cooperation channels and research opportunities in the future • To exchange information and views with other European projects 	

Dissemination
