Introduction

"Dear present and future members,

It is my pleasure to inform you that the Regional Student Network for Strategic Risk and Crisis Management has been officially registered, thus bringing a new name - "Youth Association for Strategic Risk and Crisis Management".

I am proud to point out that the period of the first six months of our work has resulted in significant success, especially the networking of a large number of students, experts, practitioners and other participants, not only regionally but also globally.

Additionally motivated by the achieved results, in the coming period we will strive to create even better quality content for academic and practical training and development in the field of strategic management of modern risks and crises. At the same time, we will strive to strengthen and deepen cooperation with numerous organizations around the world.

On this occasion, I would like to express special gratitude for the success in the work of the Board members so far - prof. dr Zoran Keković, doc. dr Jadranka Polović, Josipa Milić, Sonja Trgovčić, Dragana Bulatović, Maja Jovović, Emir Muhić, Leta B. Miovska, Nataša Miletić and Boris Perišić.

I invite you to join the activities of the Association in the coming period, and to reach our vision and achieve a defined mission together!"

COURSES

Unlike expert lectures (webinars), the courses offer members opportunities to acquire and develop a variety of practical skills necessary to properly address the complex issues of strategic risk and crisis management.

BASE OF EXPERTS AND ACADEMICS

The database consists of numerous experts, academics and practitioners from the region and beyond, from different areas of social practice, available to members for various types of cooperation, including consultations, (co) mentoring, cooperation in research and project activities, etc.

DEBATES

In extremely flexible conditions, and with minimal assistance from moderators and following instructions, debates on topics of general interest to members will be organized with the aim of encouraging the development of critical thinking skills, argumentation, logical reasoning, public speaking, etc.

JOURNAL OF PAPERS

The first thematic collection of papers in the editorial board of the Association entitled "Security Challenges, Risks and Threats of the 21st Century - Multidisciplinary Approach", composed of papers dealing with some of the burning security issues, is being prepared for publication.

COMPETENCE CENTER

Innovative database of all relevant competencies of members that will enable stakeholders from the business sector to easily find young staff that meets the needs and requirements of specific jobs and tasks, thereby increasing the visibility of members and their opportunities for professional development, as well as potential professional engagement at home and abroad.

RESEARCH PRACTICE

Formation of research teams, preparation and implementation of scientific research at the regional level.
