

6. PREDAVANJE

Laboratorija za
biljnu nematologiju

Naš zadatak je

da pomognemo ljudima koji se bave poljoprivredom, da unaprijede životne uslove kroz proces učenja, odnosno, da ih naučimo kako da upotrijebe znanje.

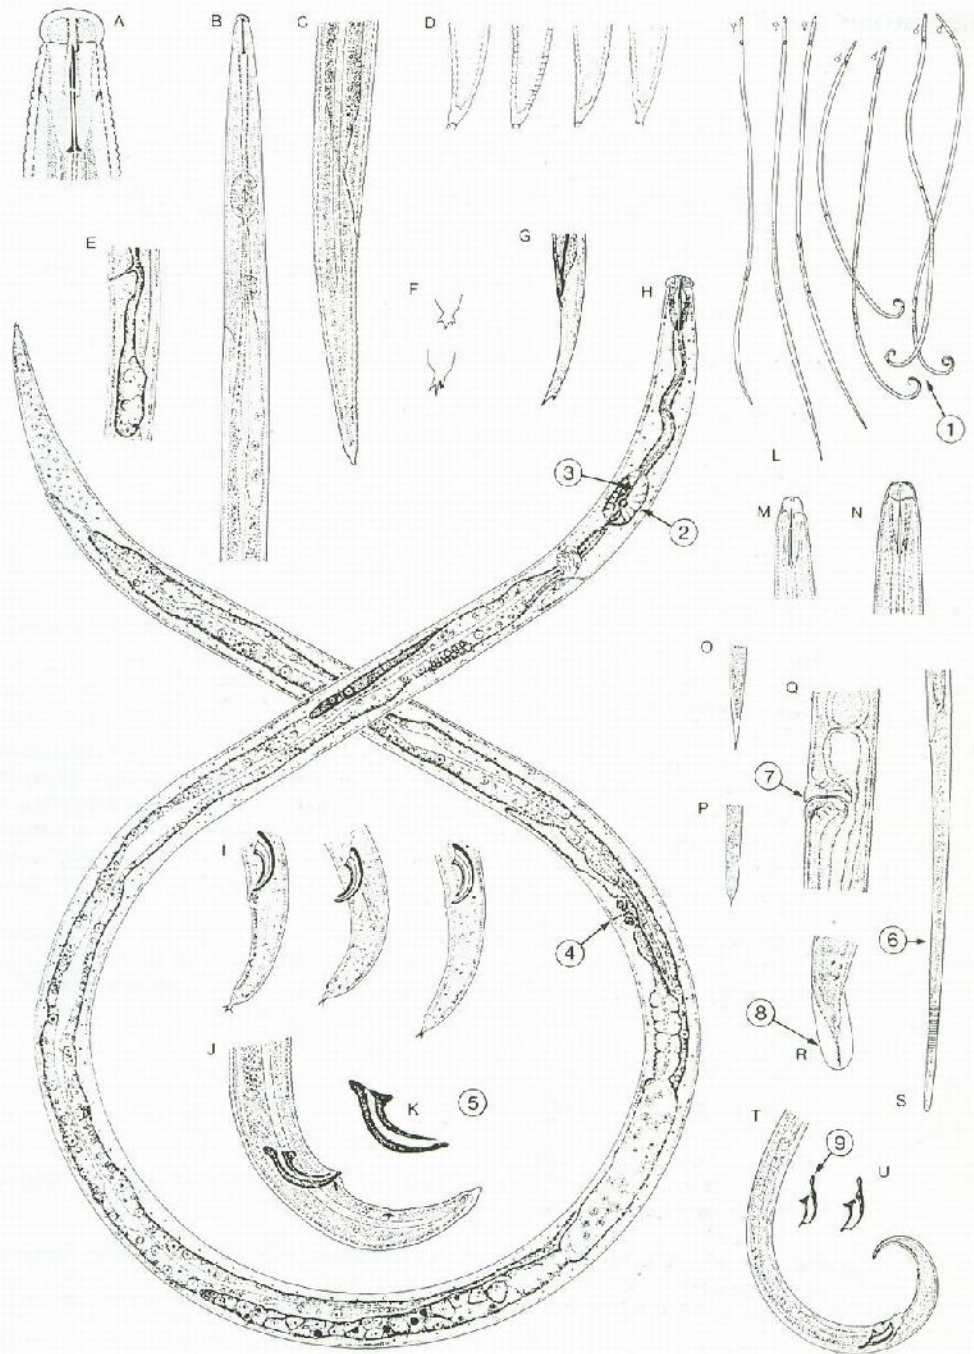

Laboratorija za
biljnu nematologiju

Nematode u voćarstvu

This document contains images of structures made by the author or collected from different sources and transformed into slides for educational purposes

napad na JAGODAMA

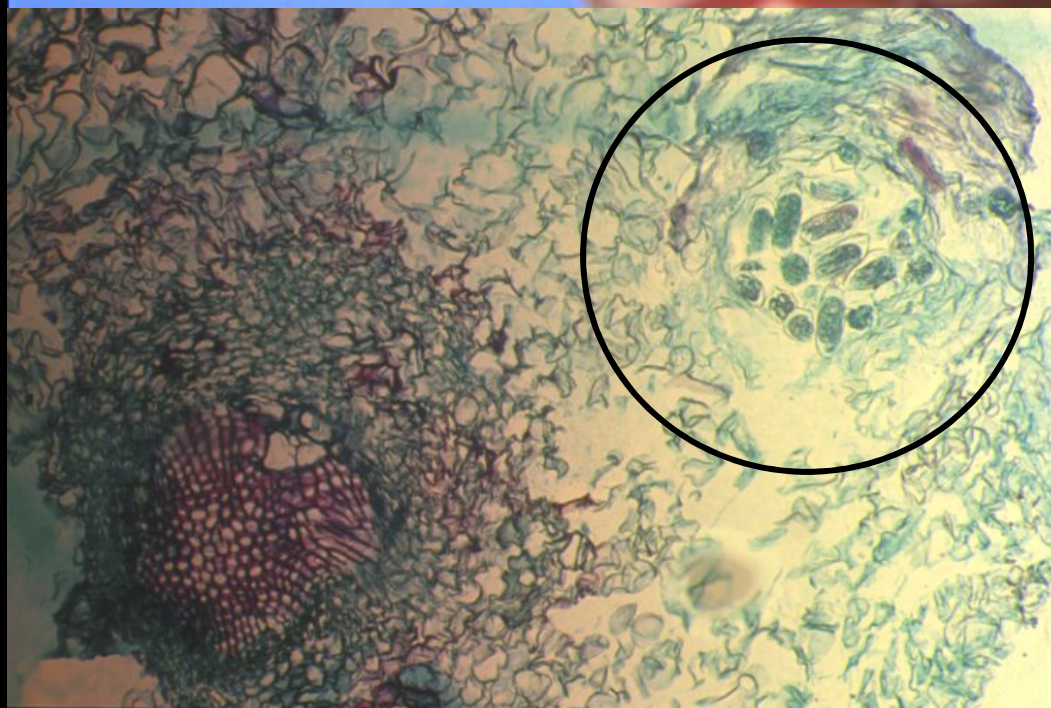

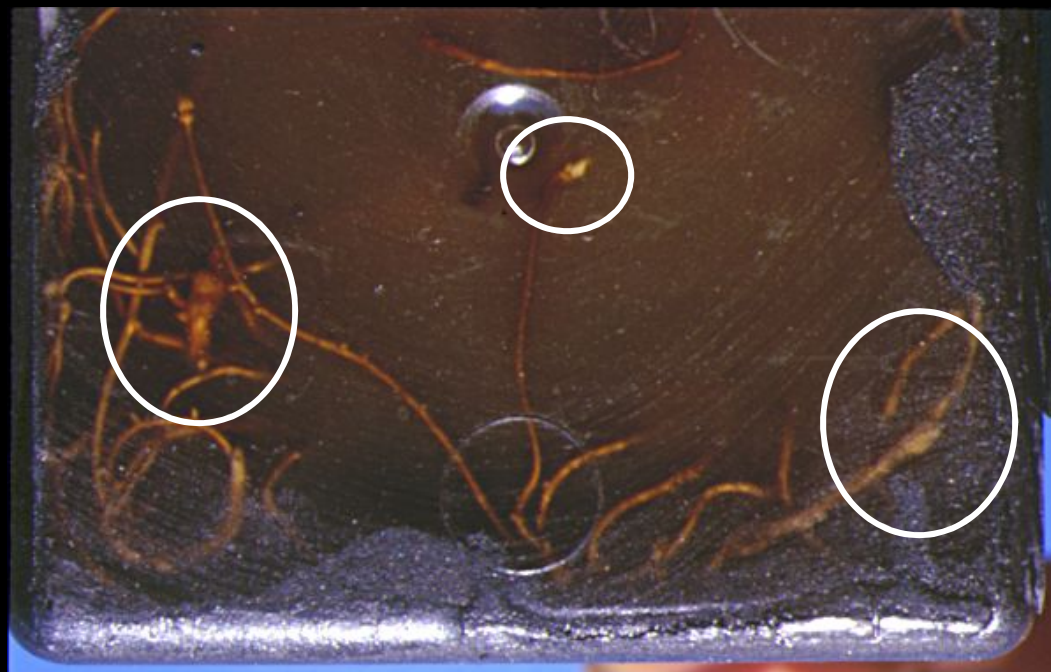

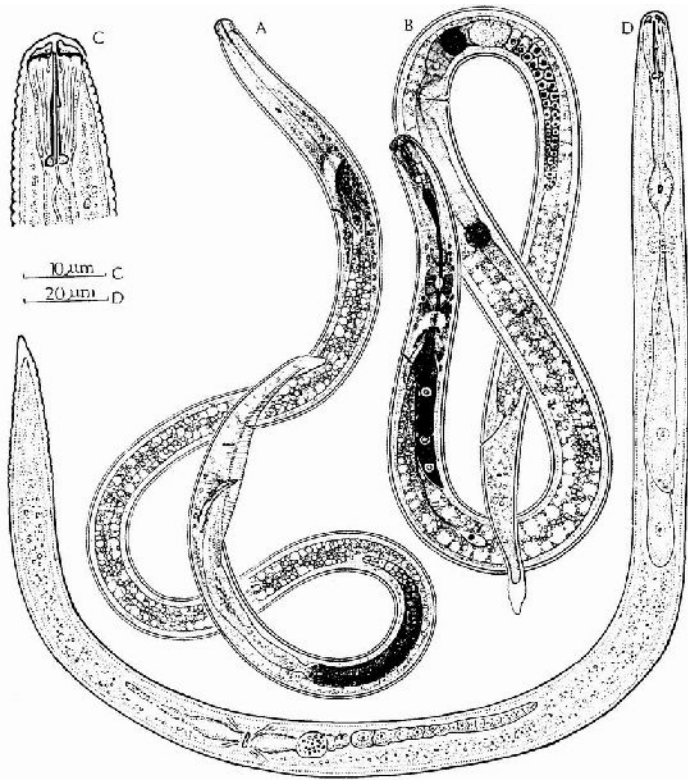

Aphelenchoides fragariae

Rezultati eksperimenta sa
Meloidoginama na maslinama

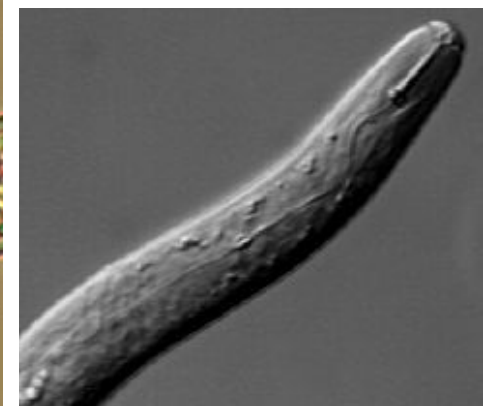

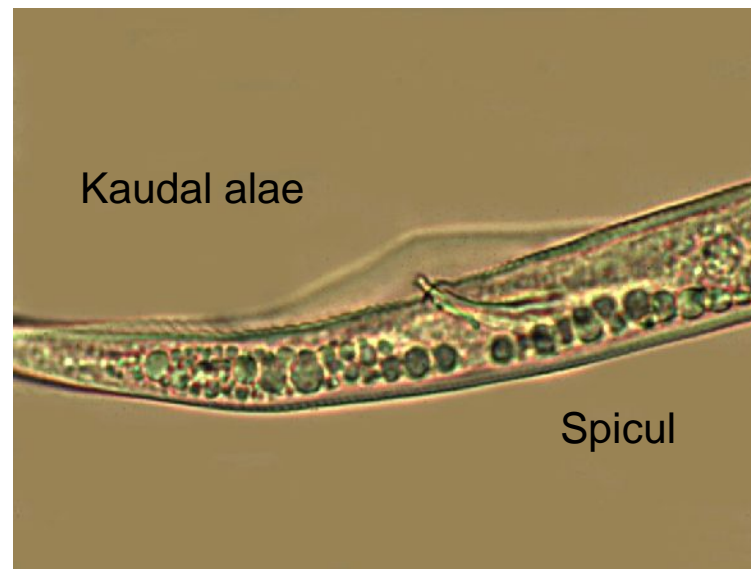

Rezultati eksperimenta sa
meloidoginama na maslinama

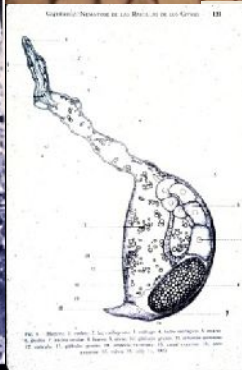

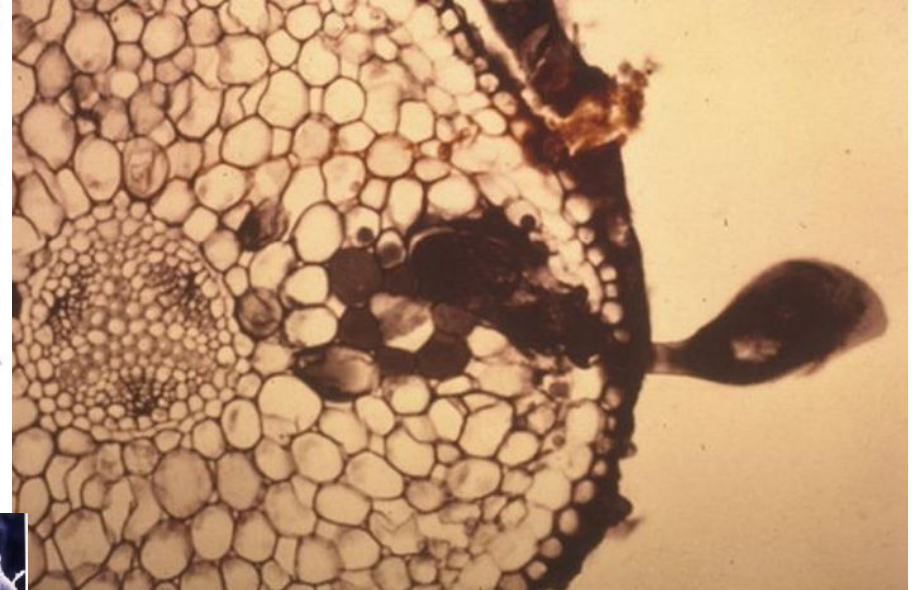

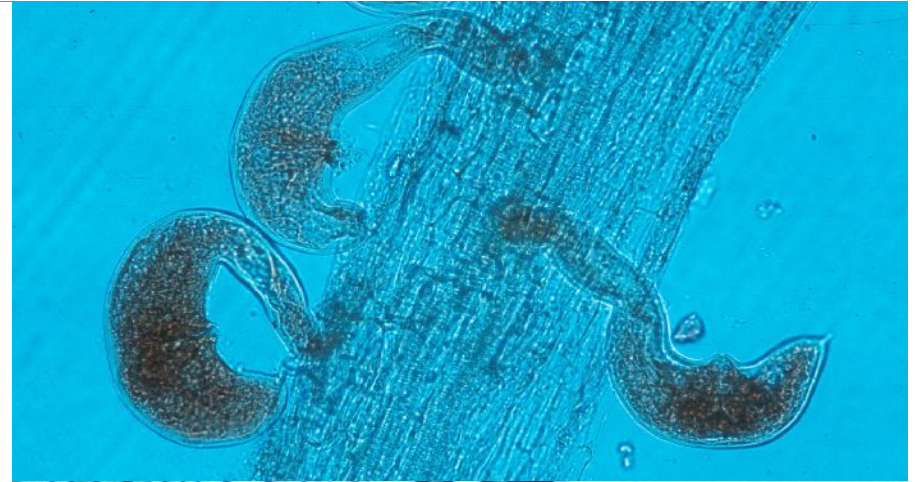

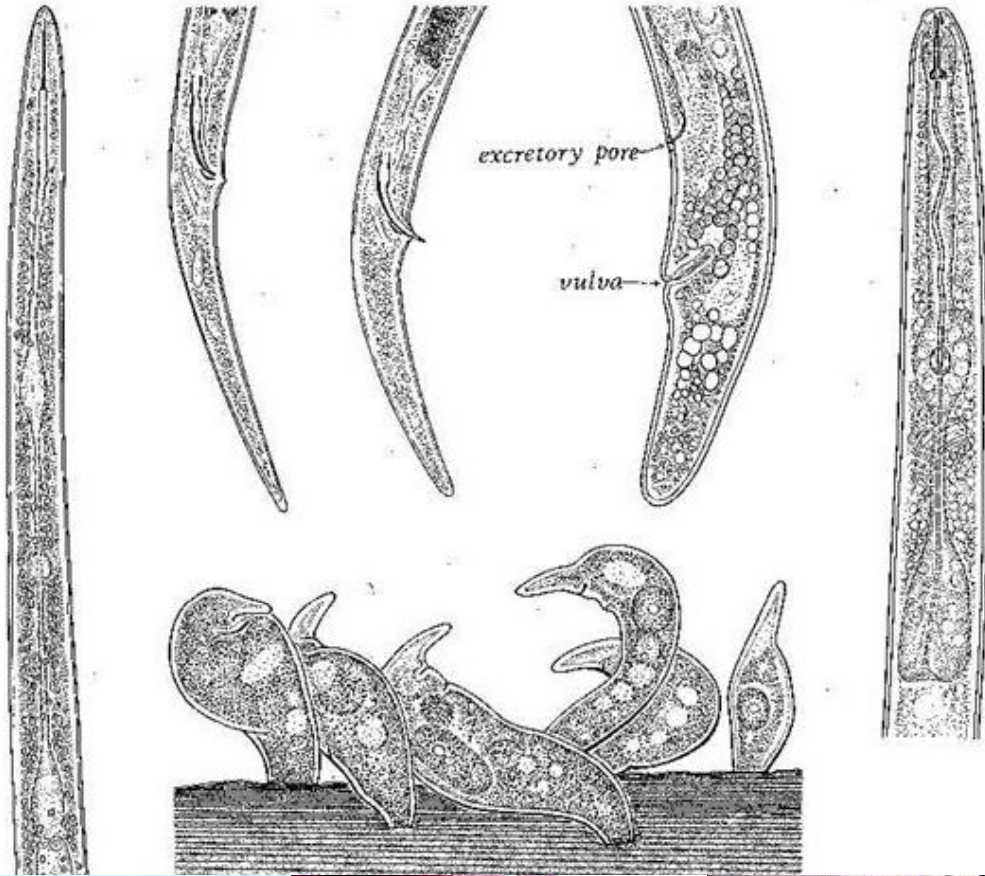

Radophilus cocophilus

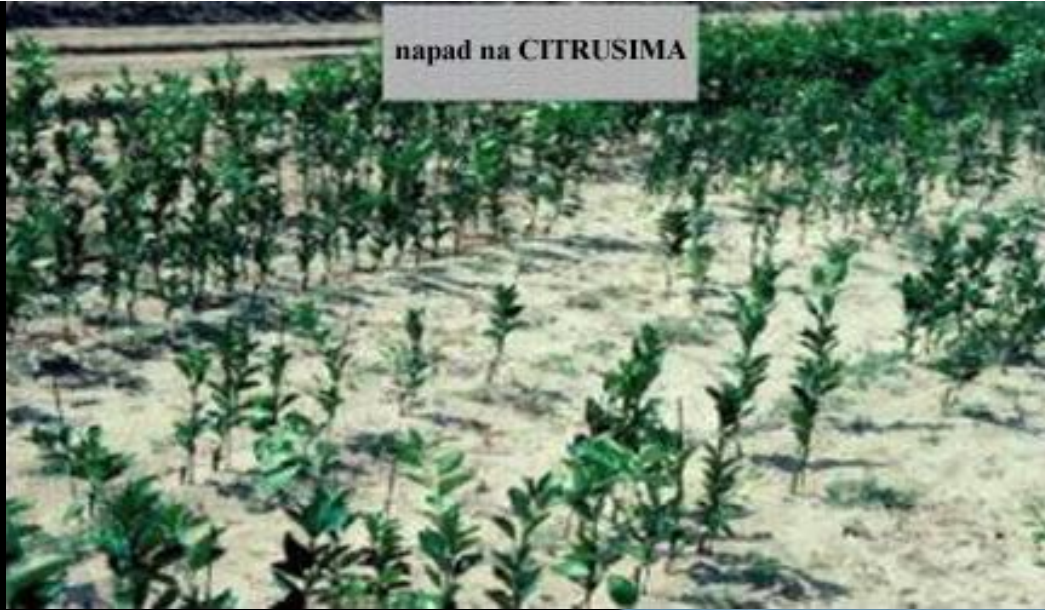

Napad na drvenastim, višegodišnjim biljkama

TYLENCHULUS SEMIPENETRANS

napad na CITRUSIMA

Laboratorija za
biljnu nematologiju

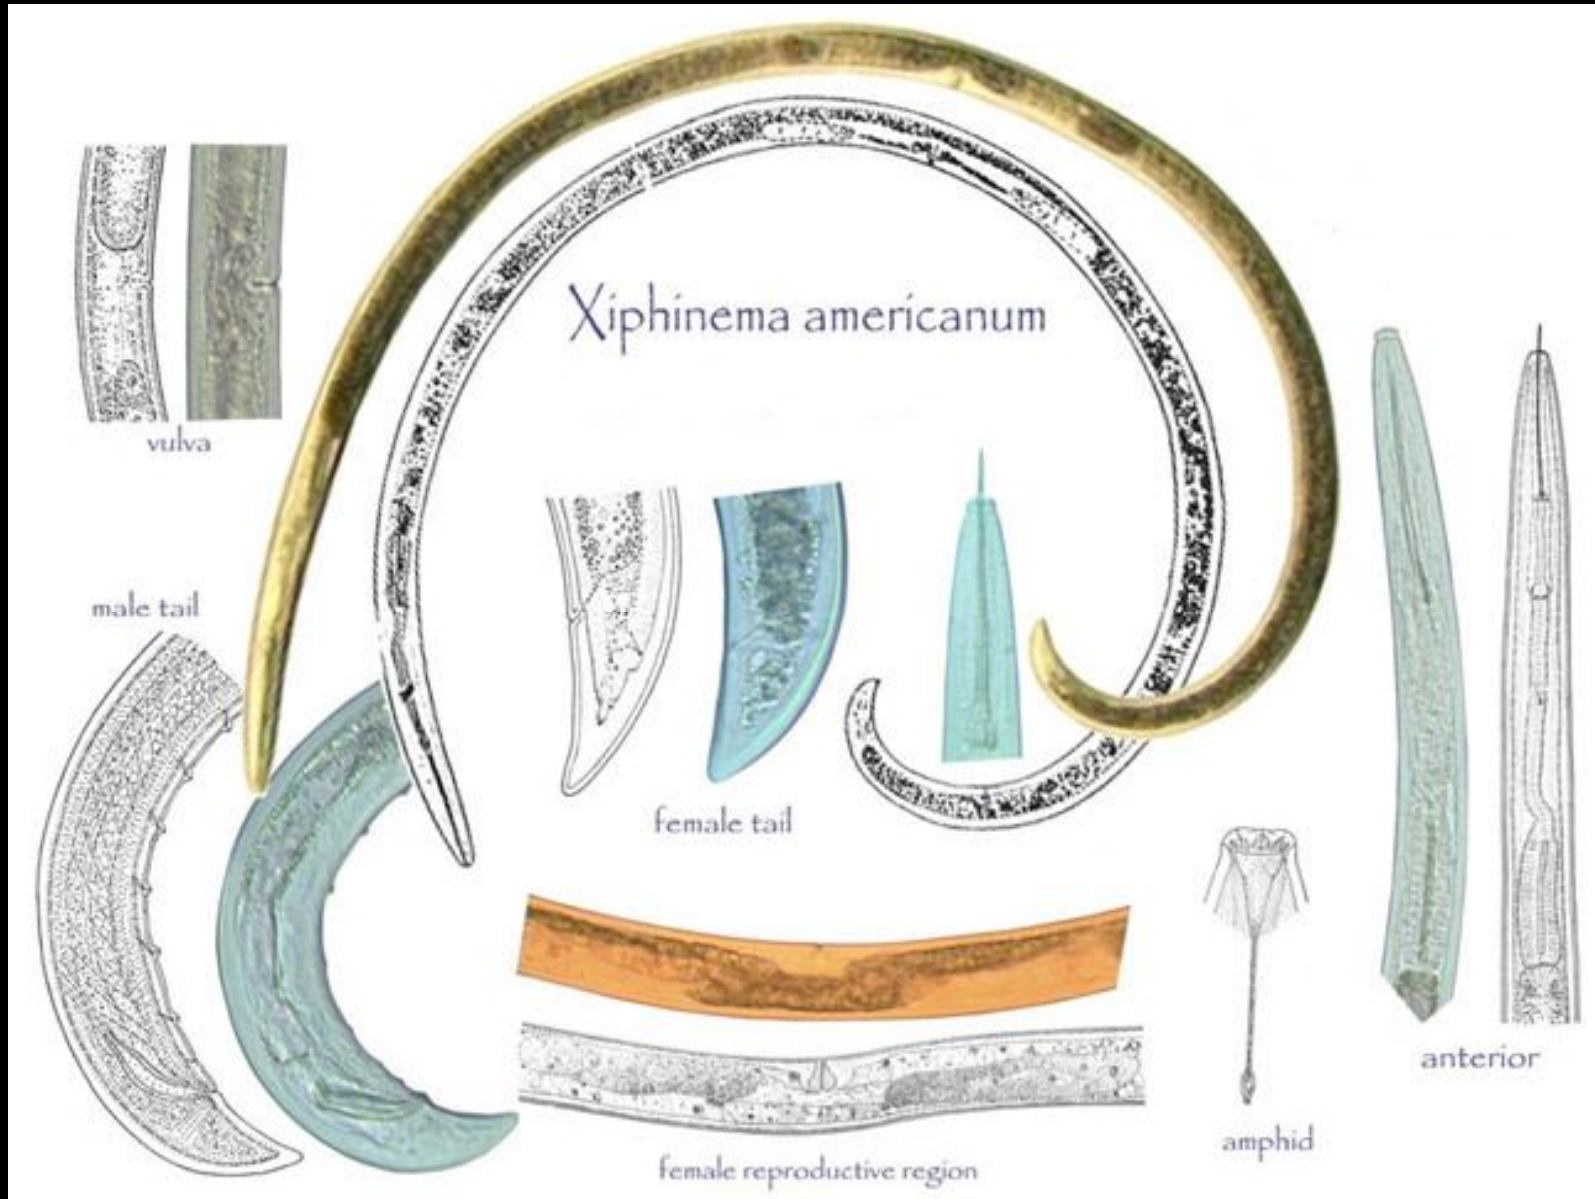

Nematode u vinogradarstvu

This document contains images of structures made by the author or collected from different sources and transformed into slides for educational purposes

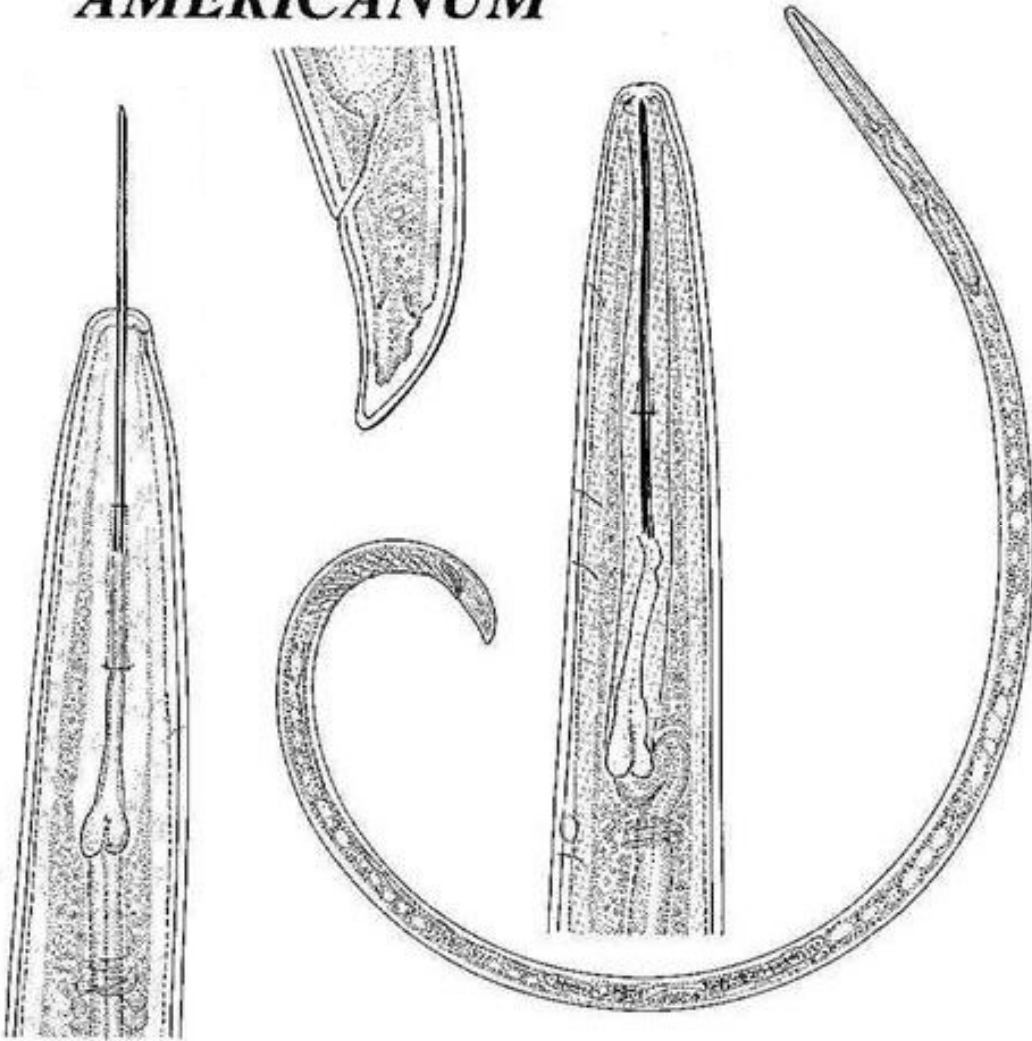

Xiphinema pachtaicum

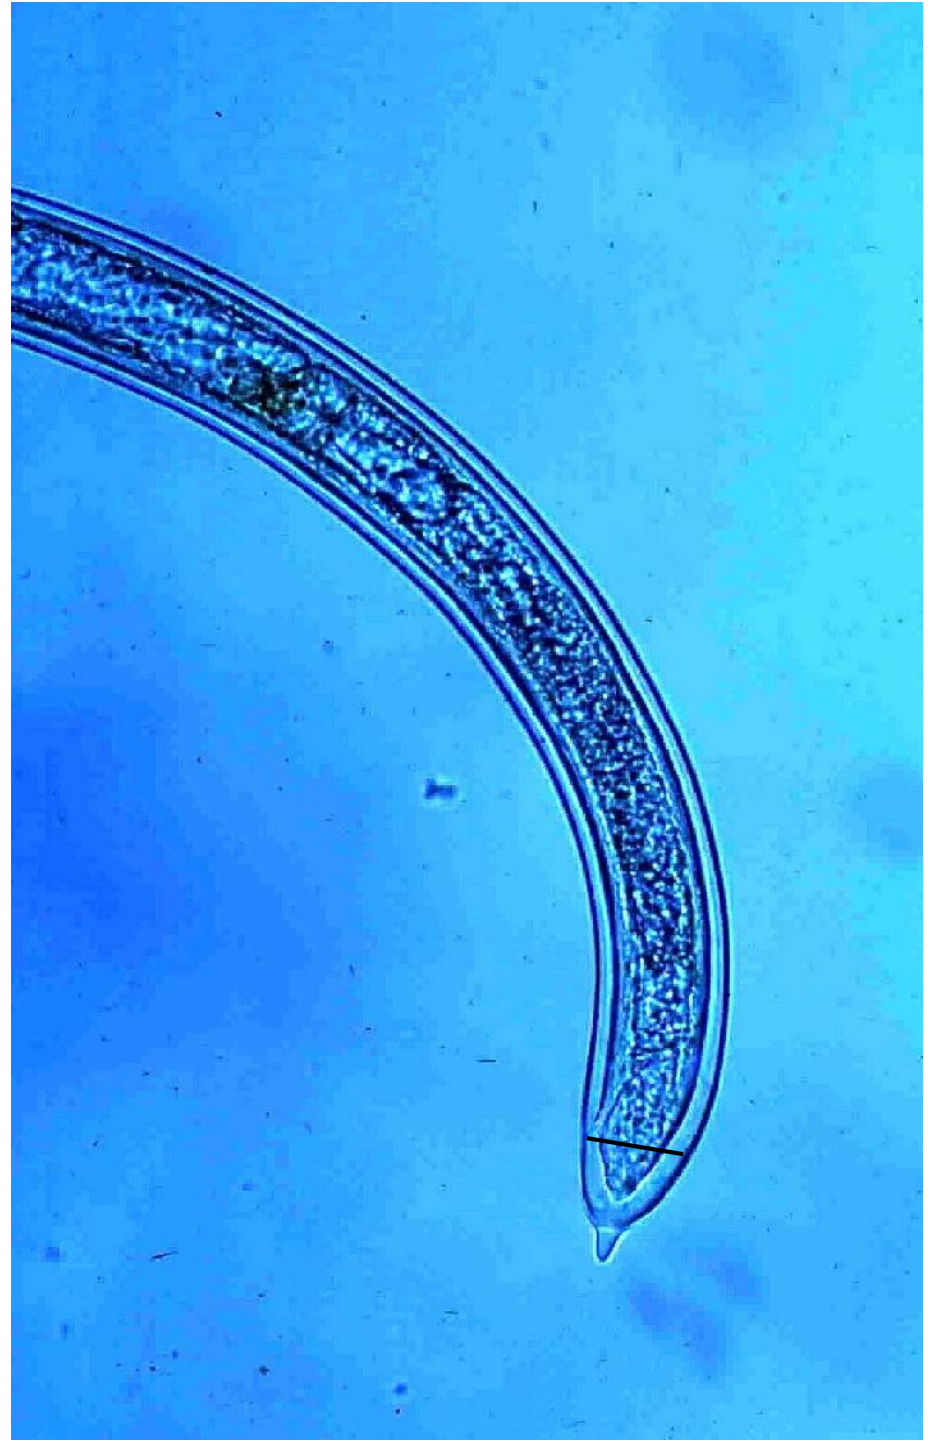

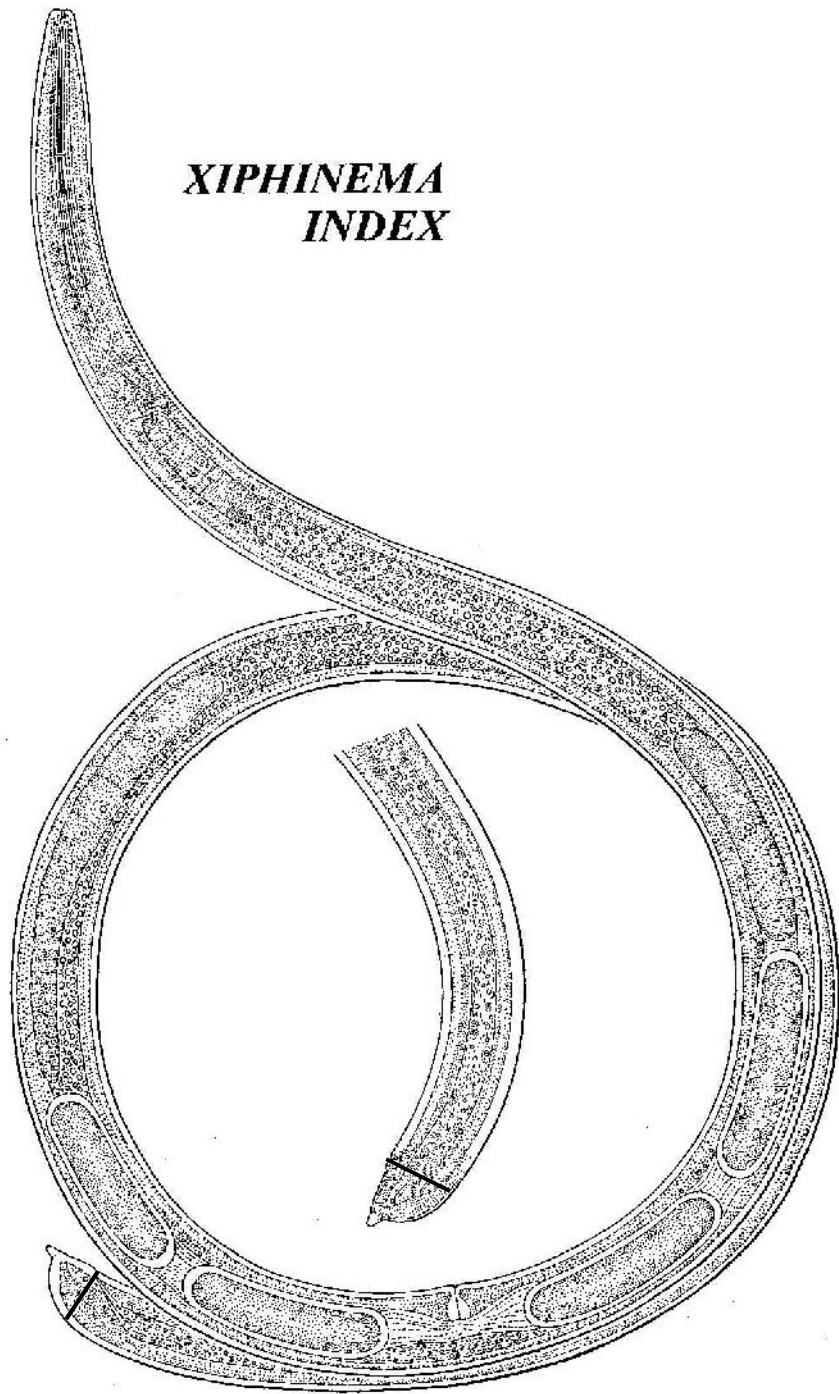

Migratorni ektoparazit

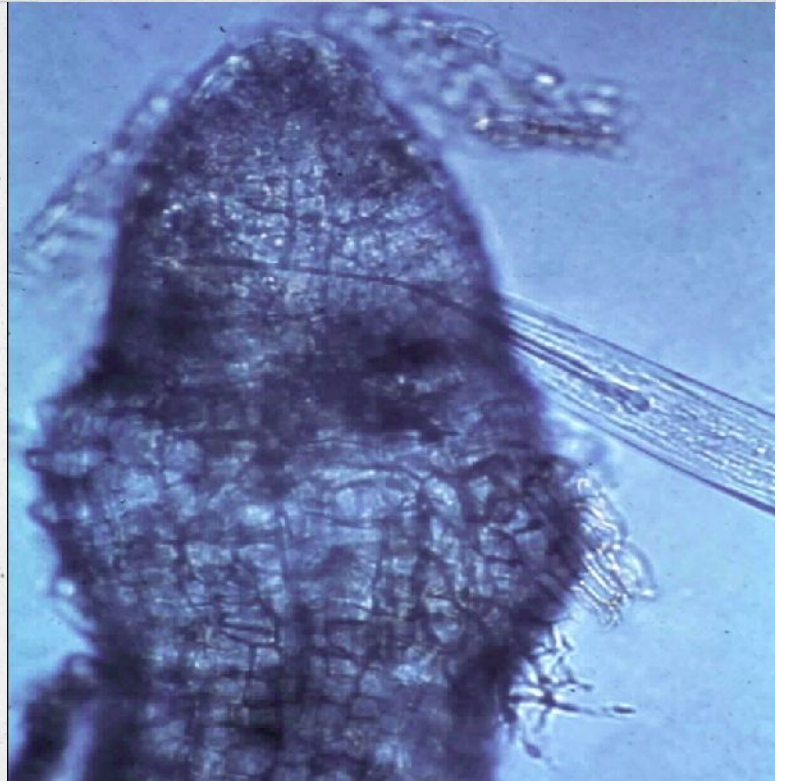

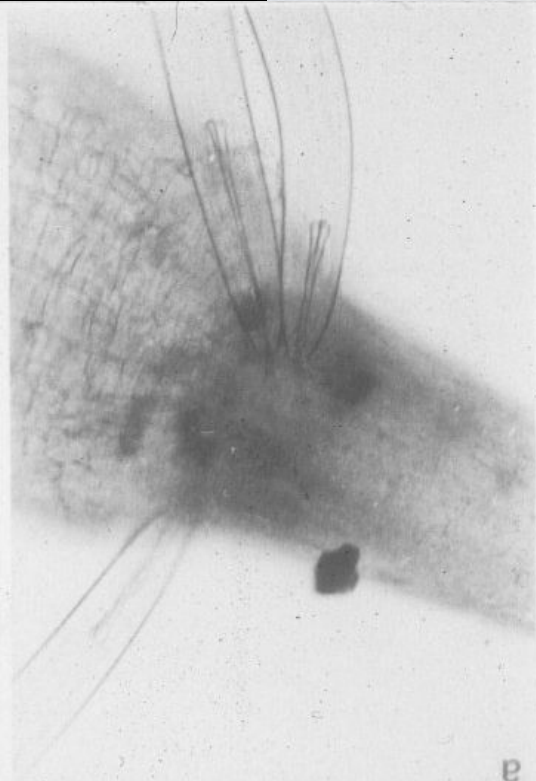

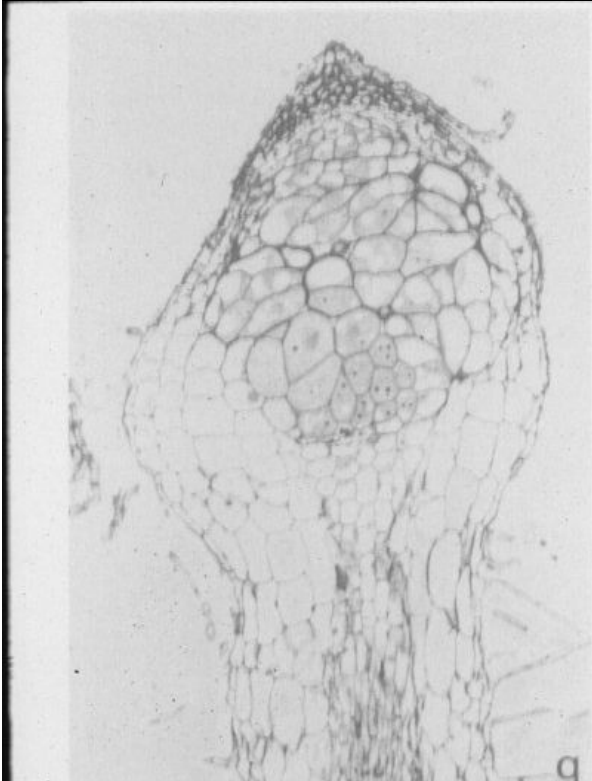

*XIPHINEMA
AMERICANUM*

*XIPHINEMA
INDEX*

Xiphinema index

Nematode koje mogu da prenose nepo viruse na vinovoj lozi:

Xiphinema index

Xiphinema italiae

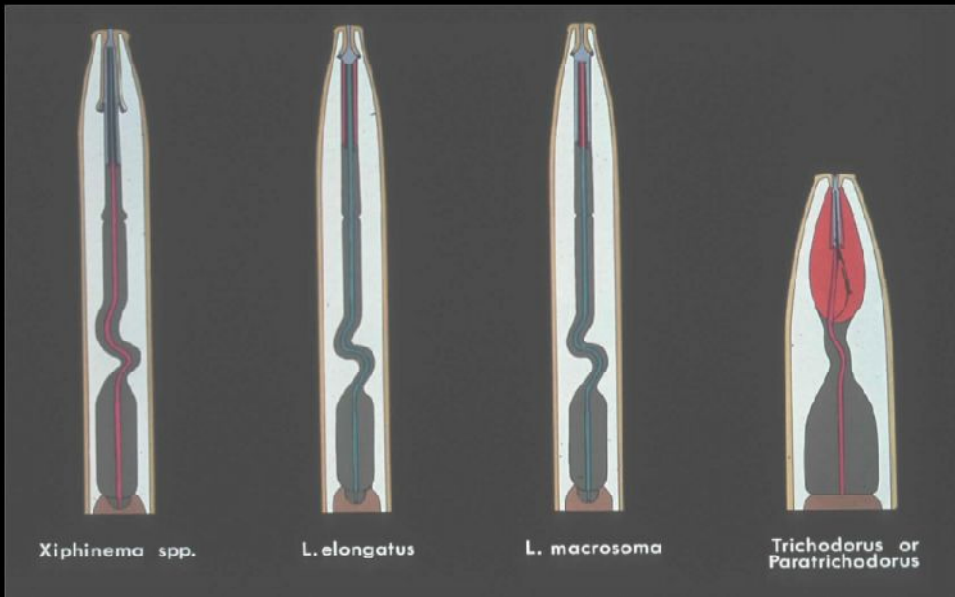

Xiphinema diversicaudatum

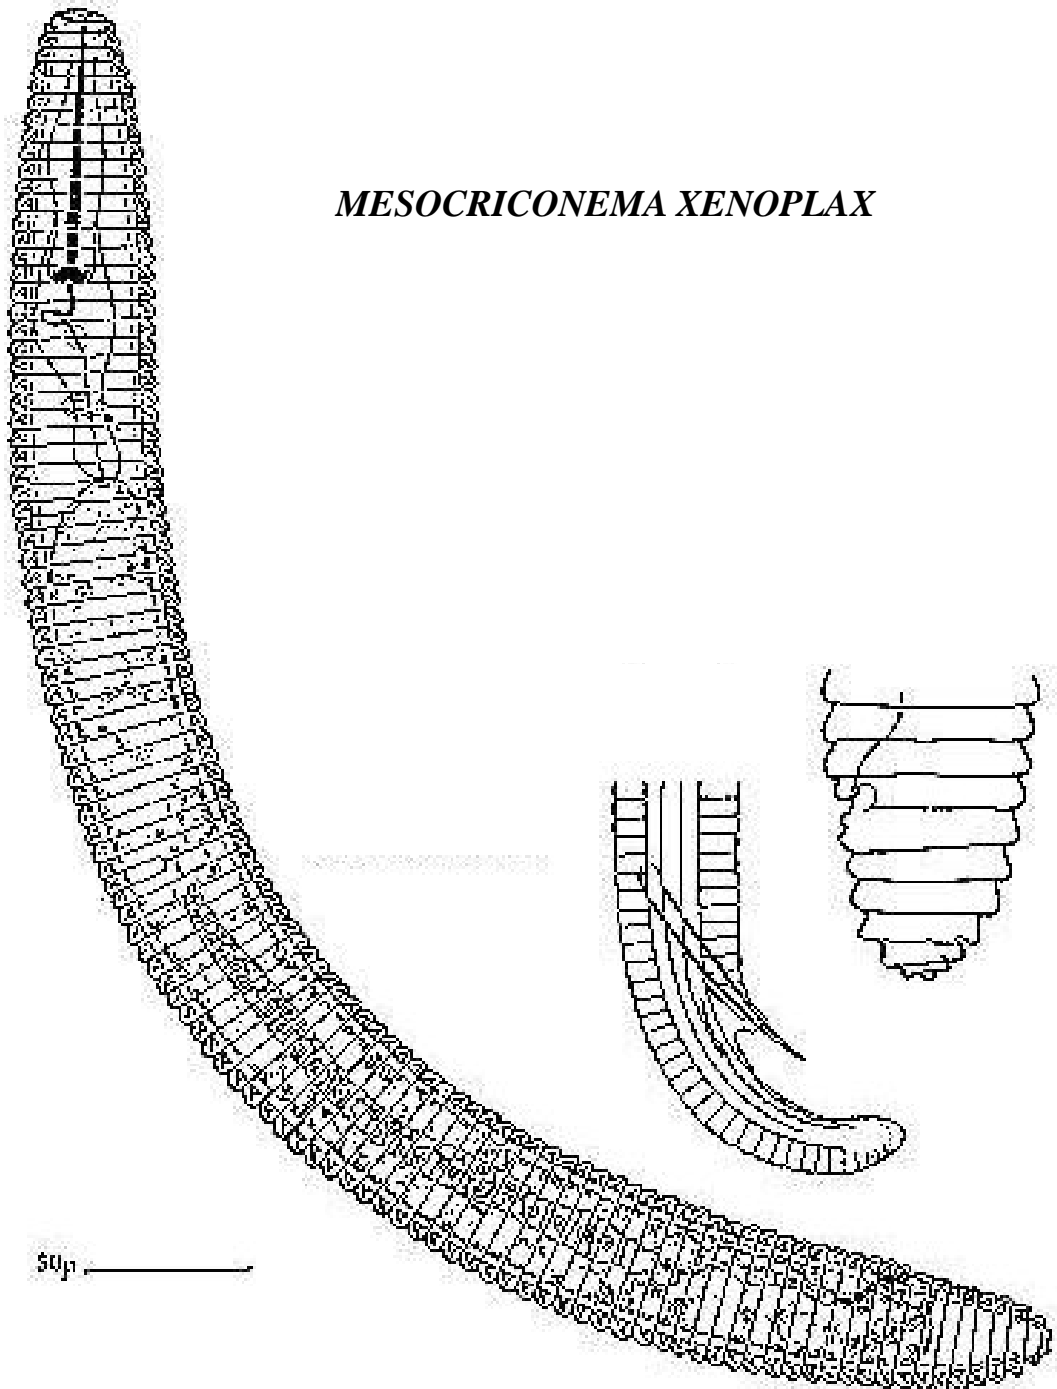

Xiphinema americanum

Xiphinema coxi

Longidorus attenuatus

Longidorus macrosoma

MESOCRICONEMA XENOPLAX

50µ

Migratorni endoparazit

Mesocriconema xenoplax

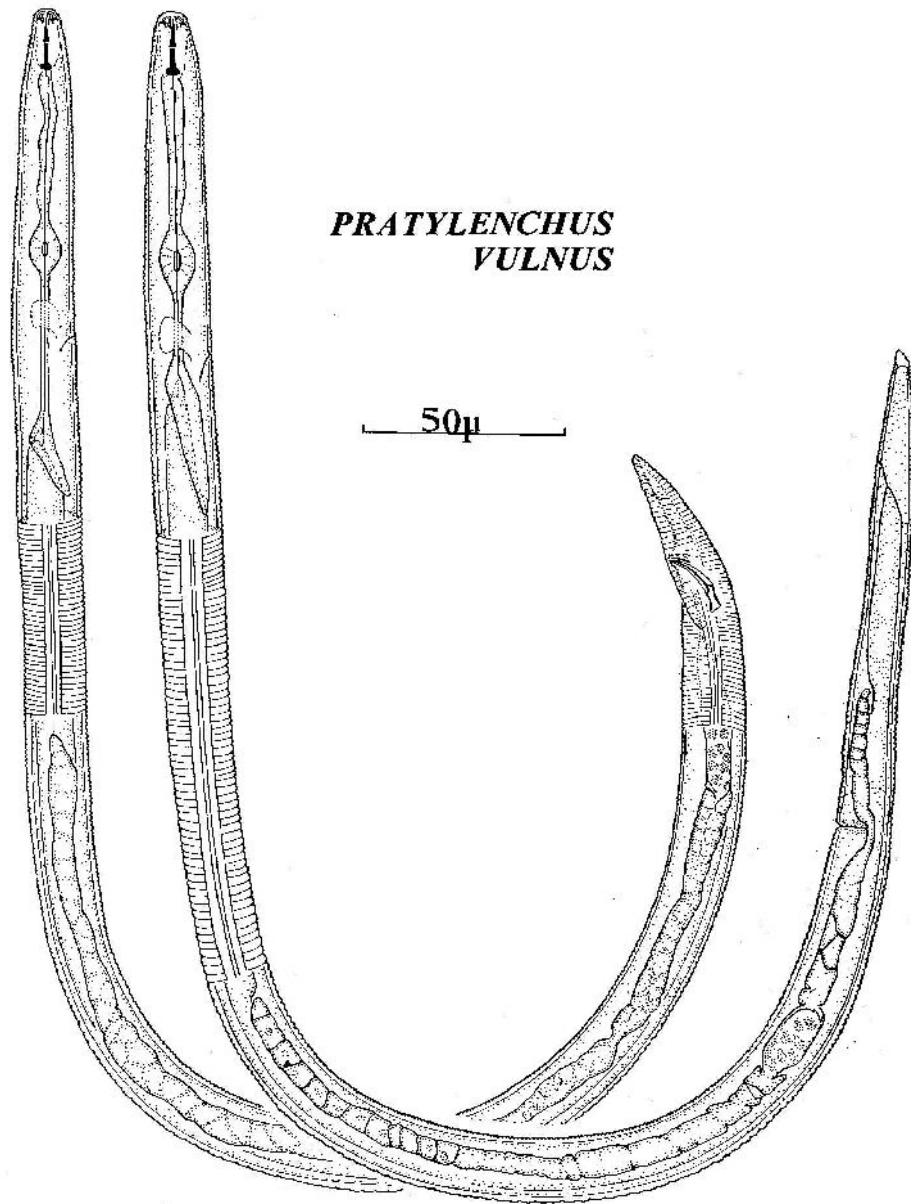

ZDRAVE

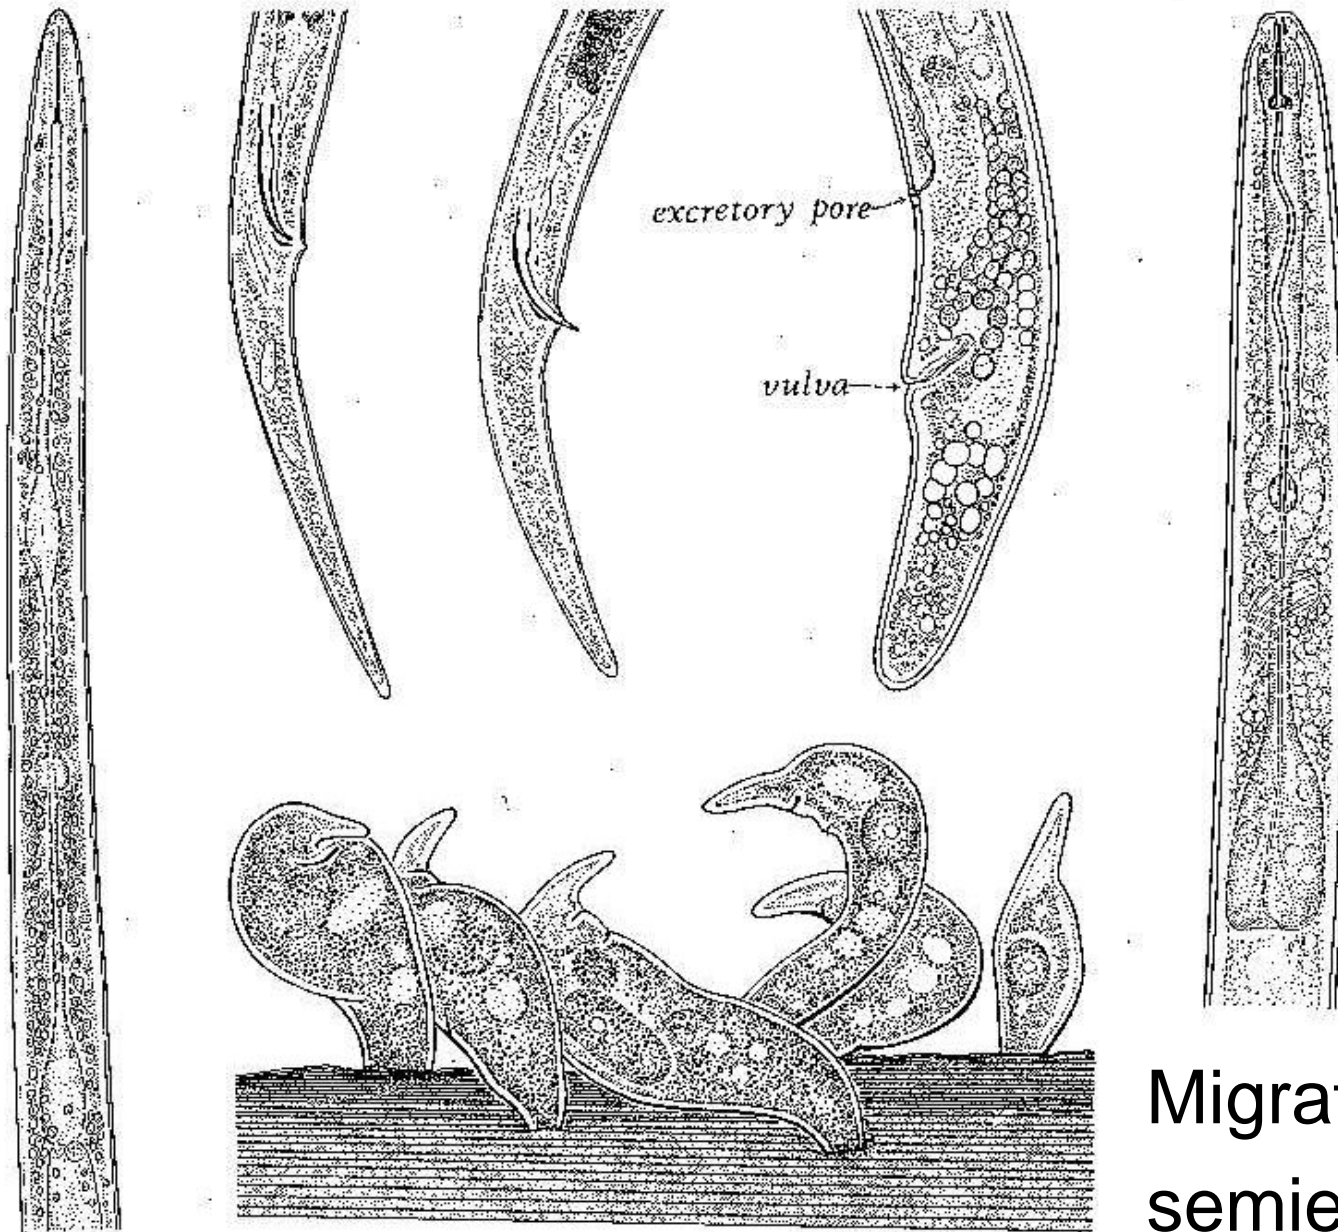

ZARAŽENE BILJKE

Migratorni endo ili
ektoparaziti

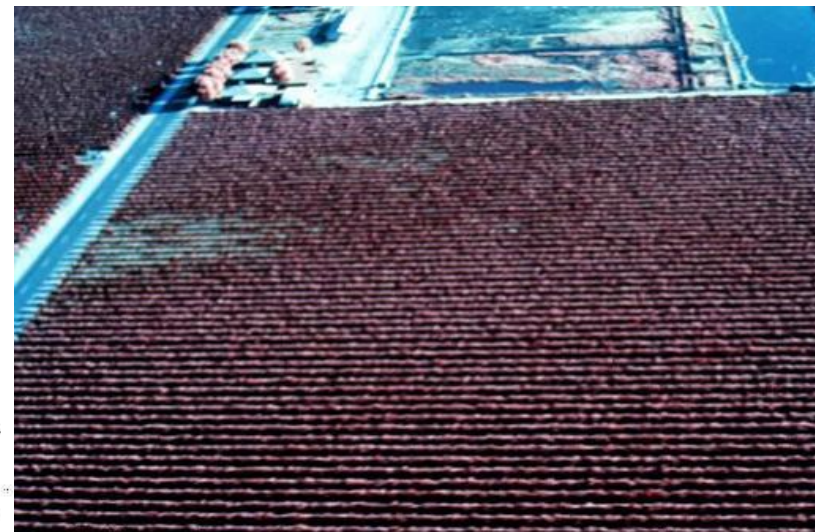

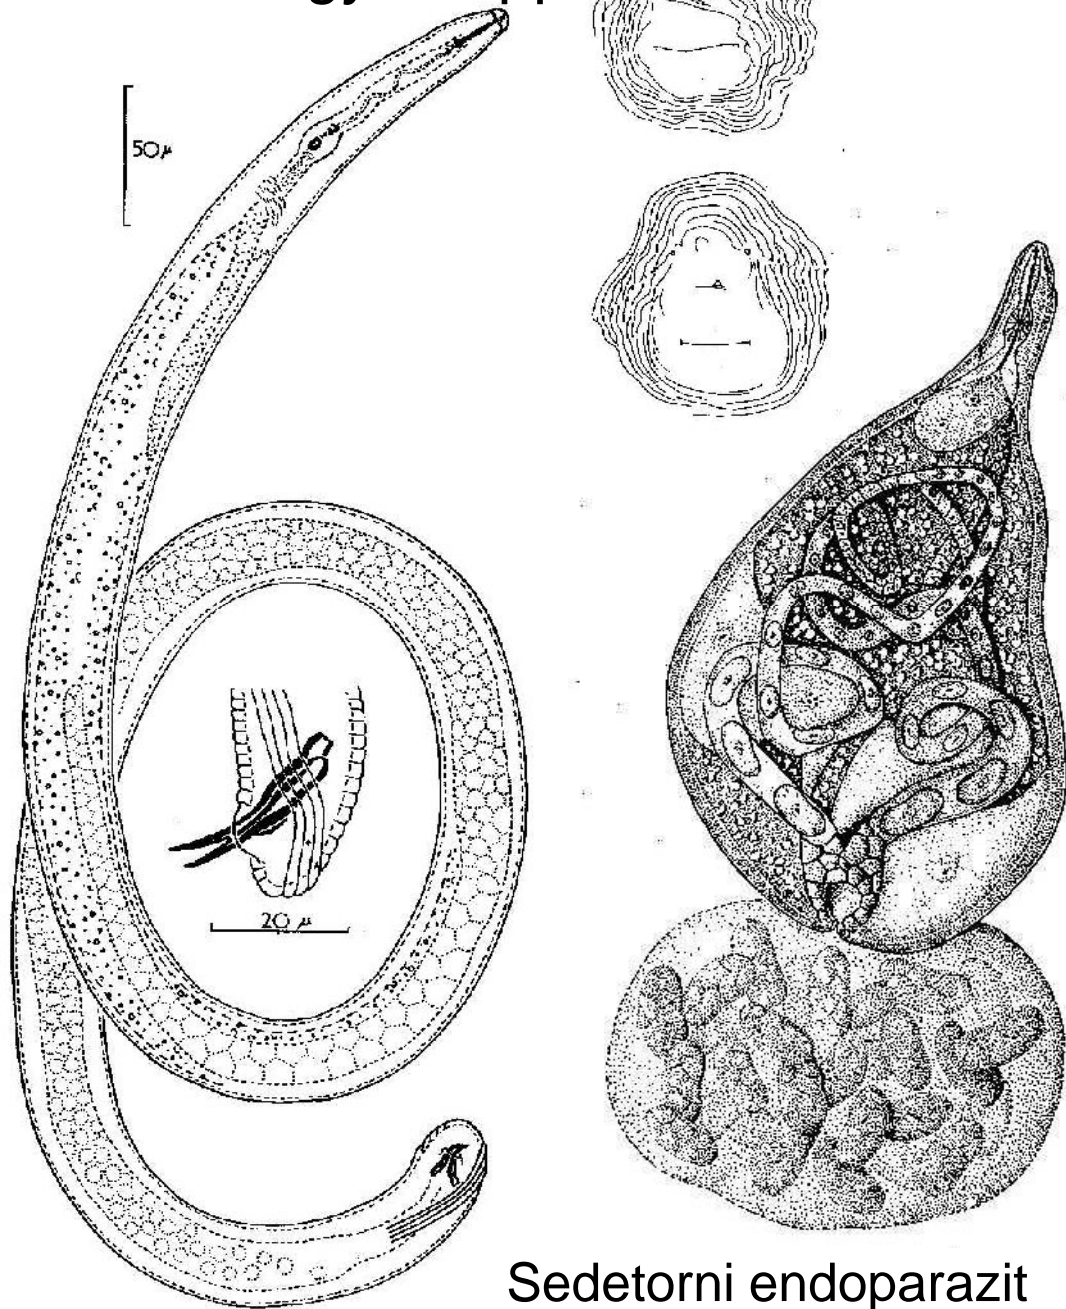

TYLENCHULUS SEMIPENETRANS

Migratorni
semiendoparazit

Meloidogyne spp
