

7. PREDAVANJE

Laboratorija za
biljnu nematologiju

Osnovna stvar je:

Naš zadatak je
da pomognemo ljudima koji
se bave poljoprivredom, da
unaprijede životne uslove kroz
proces učenja, odnosno, da ih
naučimo kako da upotrijebe znanje.

Laboratorija za
biljnu nematologiju

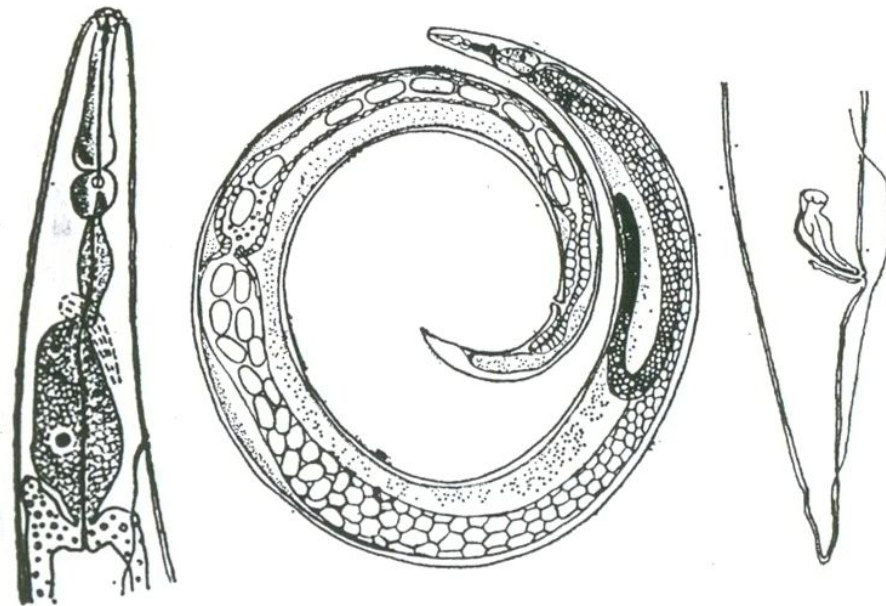

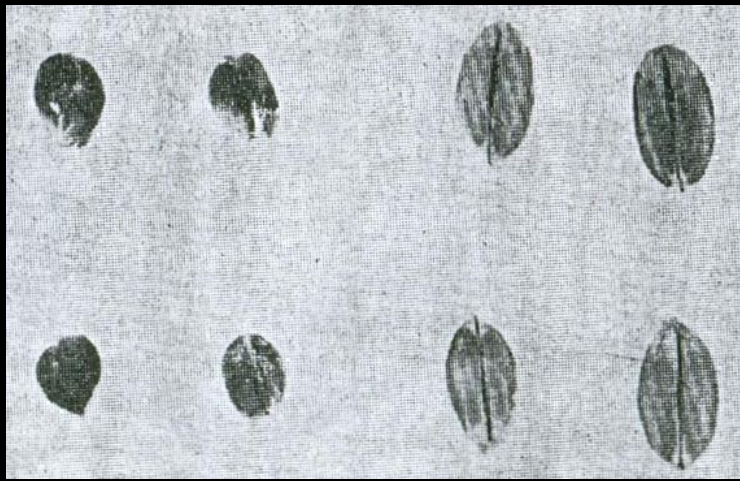

Nematode u ratarstvu

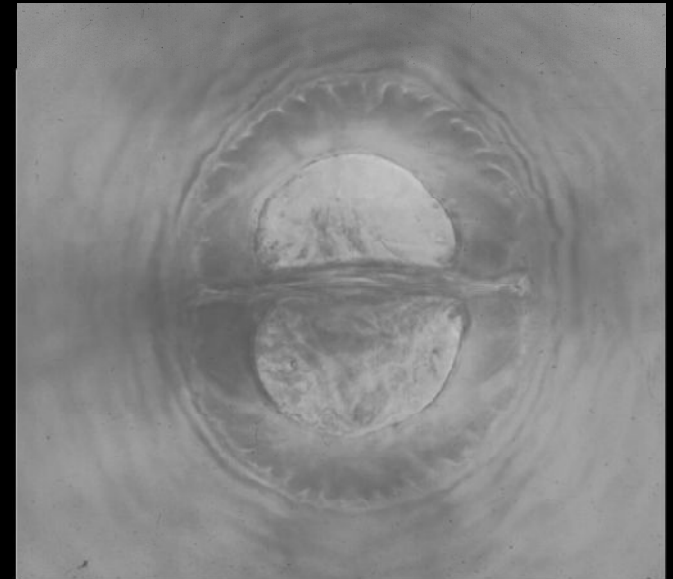

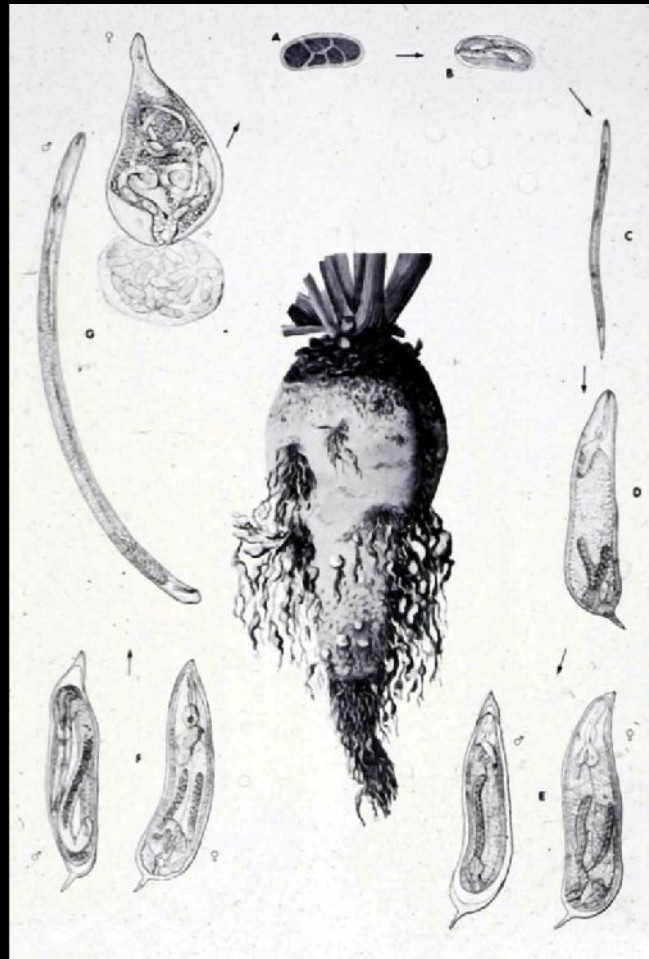

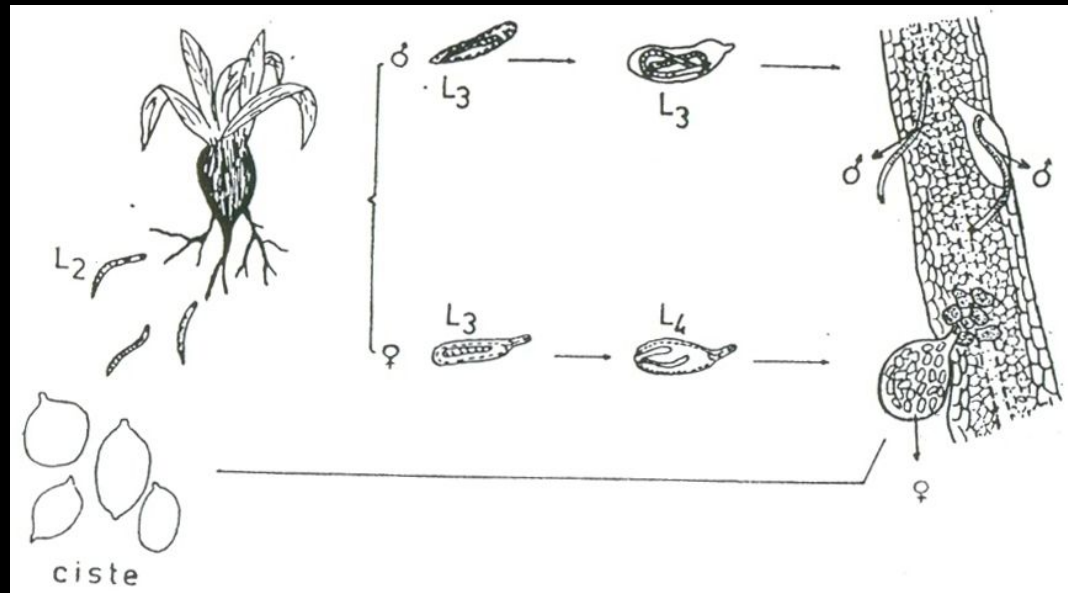

This document contains images of structures made by the author or collected from different sources and transformed into slides for educational purposes

Pratylenchus penetrans
polifagna šteto ina
u ovom primjeru na soji

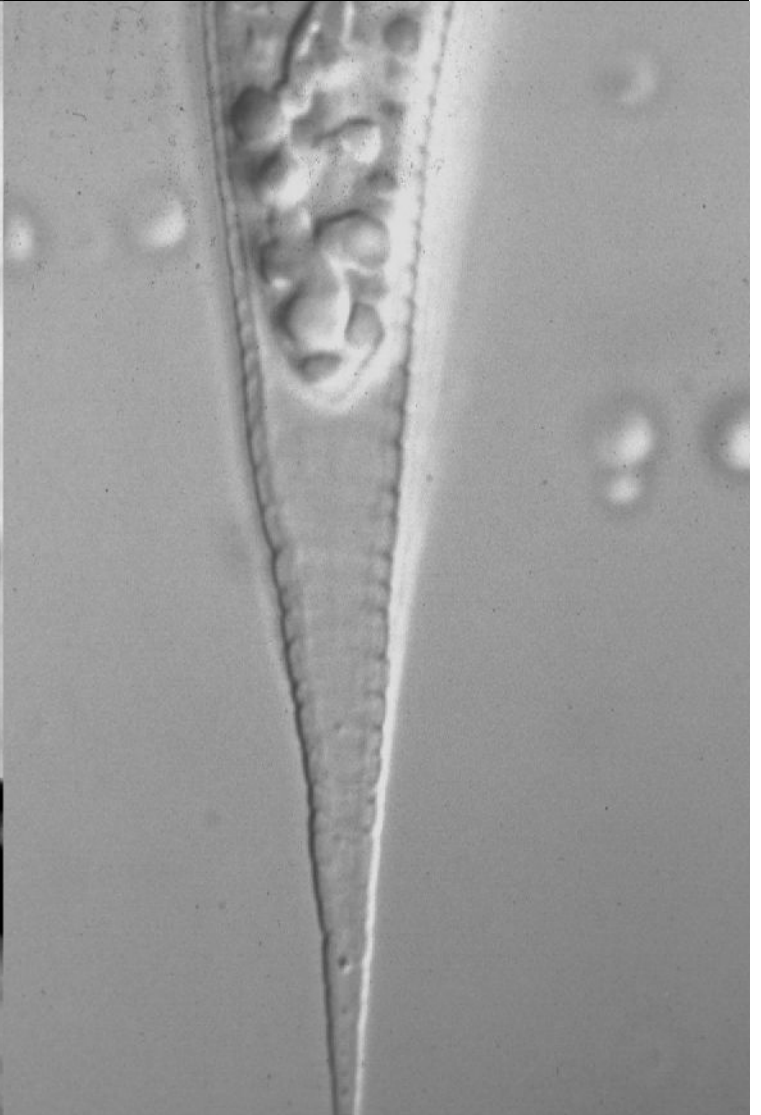

Anguina tritici na pšenici

Heterodera schachtii na korijenu še erne repe

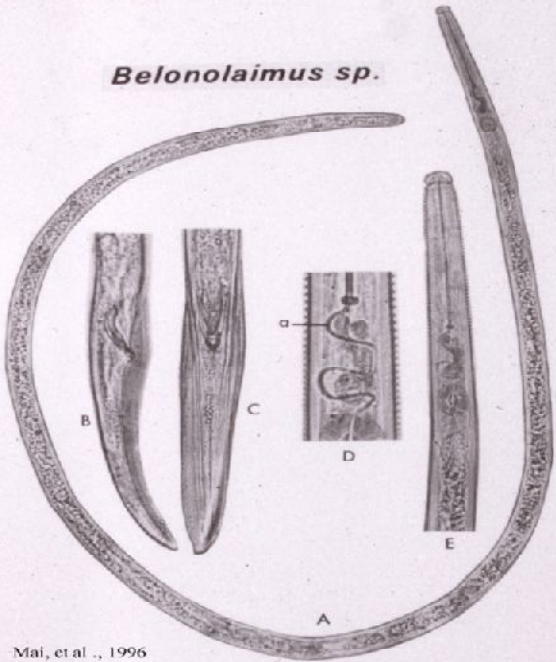

Heterodera avenae

Meloidogyne vrste na korijenu kukuruza

Belonolaimus sp.

Mal, et al., 1996

Pratylenchus alleni
male head 1000X

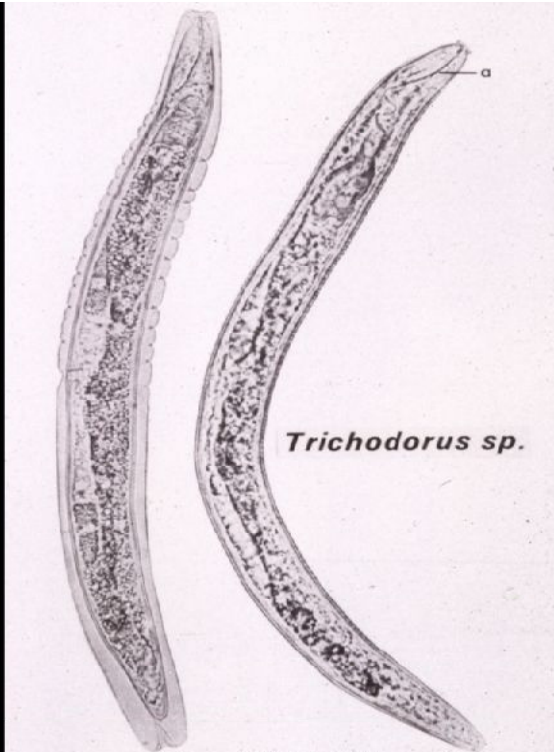

Konza Prairie
Little bluestem/
Scribner's panicum
