**Viši naučni saradnik (Senior Research Associate)** (July 2021–)

Naučni saradnik (*Research Associate*) (July 2016 – July 2021); Saradnik u istraživanju (*Research Assistant*) (Dec 2008–July 2016)

Provide scientific support for the maintenance of fish and other marine fauna exhibits at Aquarium Boka, including coordination and supervision of aquarium husbandry, system maintenance, and specimen acquisition. Conduct field and laboratory research on population dynamics, reproductive and fisheries biology, and biomass estimation of species exploited in small-scale (artisanal) and demersal fisheries in the southern Adriatic Sea (Montenegro), including data preparation and processing. Coordinate and manage scientific projects.

Institute of Marine Biology, University of Montenegro

Put I bokeljske brigade 68  
85 330 Kotor

Academic, Research Institute (marine fisheries, biology and aquaculture, marine chemistry)

2009–2015

Consultant (temporary, as-needed basis)

Organisation and preparation of data collection on fishing vessels and ports along the Montenegrin coast; collection of information on alien species in small-scale fisheries (SSF) catches; collection of biological and fishery data on target species; liaison with Research Institutes in Adriatic region in preparation of common technical/scientific documents on the state of SSF in the Adriatic Sea; performing data quality control and processing.

FAO AdriaMed Project ([www.faoadriamed.org](http://www.faoadriamed.org)), Food and Agriculture Organisation of the United Nations, FAO AdriaMed Project, c/o FIRF (room C535), Viale delle Terme di Caracalla, 00100 Rome, Italy

International organisation (UN)

## Education

Date

Title of qualification awarded

Thesis title

Principal subjects/Occupational skills covered

2013

**Doctorate (PhD)** (Natural Sciences / Interdisciplinary Natural Sciences / Marine Sciences)

“Population dynamics of horned octopus (*Eledone cirrhosa* Lamarck, 1798) and musky octopus (*Eledone moschata* Lamarck, 1798) in the south Adriatic”

Research (field and laboratory) on population dynamics, reproductive and fishery biology and biomass estimation of marine organisms (focus on cephalopods)

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

### INTERNATIONAL AND BILATERAL PROJECTS

Creating Resilient Areas to Develop Lifecycles and Ecosystem Services (CRADLES) (Interreg ADRION) – project partner leader

Enhancing Cross-Border Blue Growth: Fostering Innovation And Cooperation For Competitive Entrepreneurship (BLUECONNECT) (IPA Croatia – Bosnia and Herzegovina – Montenegro) – researcher

In quest of the human dimensions of MEDiterranean Marine Biodiversity (MEDiverSEAty) (Horizon Europe 2020) – researcher

High Level and Market-respondent Competences for a Blue and Digitalized “Smart and Skilled South Adriatic” (SKILLS) (IPA South Adriatic) – researcher

Promoting Small Scale Fisheries and Aquaculture transnational Networking in Adriatic-Ionian Macroregion PLUS (ARIEL PLUS) (Interreg ADRION) – project partner leader

Development of regional joint master program in Maritime environmental protection and Management (MEP&M) (Erasmus+) – researcher

Explore Cross-border Aquatic Biodiversity (EXChAngE) (Interreg IPA CBC Croatia–Bosnia and Herzegovina–Montenegro) – researcher

Blue Growth Community — Capitalization & Communication project for Blue Economy Innovation in the Mediterranean (BlueGrowth2) (Interreg Mediterranean) – researcher

Management of non-native aquatic species in Western Balkans (Albania, Bosnia and Herzegovina and Montenegro) (RISKMAN) (Erasmus+) – researcher

Participatory model for the sustainable management of marine and coastal resources and for cross border habitats, biodiversity and ecosystem services safeguard (BLUE LAND) (Interreg IPA CBC Italy–Montenegro–Albania) – researcher

Water landscapes sustainability through reuse of marine litter (WELCOME) (Interreg IPA CBC Italy–Montenegro–Albania) – researcher

Promoting Small Scale Fisheries and Aquaculture transnational Networking in Adriatic-Ionian Macroregion (ARIEL) (Interreg ADRION) – project partner leader

Horizontal Communication & Capitalization project for Innovation in Blue Growth at Mediterranean level (InnoBlueGrowth) (Interreg Mediterranean) – researcher

Fish, crustaceans and bivalves – biondicators of the environment condition on the Montenegrin coast (Montenegro, Serbia) – researcher

ADRIATIC+ — Sharing marine and coastal cross management experiences in the Adriatic basin) – researcher

Biodiversity and structure of eastern Adriatic coastal fish and other marine organism communities: case studies of Croatia and Montenegro (BIOS) (Montenegro, Croatia) – project leader

Development of a new methodological approach to study the recruitment dynamics of fish and crustaceans in the Kotor Bay (Montenegro, Italy) – researcher

Biological and ecotoxicological research of the coastal area of Croatia and Montenegro (BIOECO-CROMON) (Montenegro, Croatia) – researcher

Centre of Excellence in Bio-informatics (BIO-ICT), University of Montenegro, Faculty of Electrical Engineering – researcher (marine aquaculture)

| 2014–2017               | FA COST Action FA1301—A network for improvement of cephalopod welfare and husbandry in research, aquaculture and fisheries (“Ceph <i>s</i> /nAction”) – Management Committee member                                                                       |
| 2013–2016               | Derelict Fishing Gear Management System in the Adriatic Region (DeFishGear) (IPA Adriatic CBC) – researcher                                                                                                                                               |
| 2013–2015               | Network for the conservation of cetaceans and sea turtles in the Adriatic (NETCET) (IPA Adriatic CBC) – researcher                                                                                                                                        |
| 2013–2015               | MAREA, Specific Project No. 10 — SEDAF – researcher                                                                                                                                                                                                       |
| 2013–2014               | Comparison of the state of resources in artisanal fisheries along the eastern Adriatic coast (Montenegro, Croatia) – researcher                                                                                                                           |
| 2011–2012               | Analysis of conditions of demersal resources along the eastern Adriatic coast with recommendations for sustainable management and conservation (ADRIJA) (Montenegro, Croatia) – researcher                                                                |
| 2010–2012               | Sustainable management of marine fishery (IPARD) – researcher                                                                                                                                                                                             |
| 2010– (ongoing)         | MEDITS (Mediterranean International Trawl Survey) – researcher                                                                                                                                                                                            |
| 2009– (ongoing)         | FAO AdriaMed Project (Scientific Cooperation to Support Responsible Fisheries in the Adriatic sea) – researcher                                                                                                                                           |
| ...                     | <b>NATIONAL PROJECTS</b>                                                                                                                                                                                                                                  |
| 2012–2015               | Monitoring of coastal fisheries and fish fry composition along the Montenegrin coast, with the aim of conservation and sustainable management of marine fisheries (MORM–MONT) – researcher                                                                |
| 2008–2011               | Biological resources, edible and inedible, in trawl fisheries along Montenegrin coast – researcher, PhD student                                                                                                                                           |
| <b>Training courses</b> |                                                                                                                                                                                                                                                           |
| 23-25 January 2025      | Sub-regional training on monitoring, identification, and advanced research methodologies of chondrichthyans in the Adriatic Sea (SPA/RAC & Sharklab ADRIA), Vlorë, Albania                                                                                |
| 2–6 October 2017        | Beginners course on “Integrated Assessment Using Stock Synthesis”, General Fisheries Commission for the Mediterranean (GFCM), Rome, Italy                                                                                                                 |
| 12–14 May, 2015         | Seminar/Workshop on the Use of Light-Traps for Capturing Post-Larvae, Institute for coastal marine environment (IAMC), National Research Council (CNR), Capo Granitola, Campobello di Mazara, Italy.                                                      |
| 26–30 January, 2015     | “Intensive Data Analysis course: Introduction to the R system”, FAO MedSudMed, Rome, Italy.                                                                                                                                                               |
| 4–9 November, 2013      | “JRC-GFCM-AdriaMed-MedSudMed-EastMed-CopeMed—Joint training course on Improving the Analysis of Fisheries Data: an Introduction to R and the Fisheries Library based on R (FLR)”, Rome, Italy.                                                            |
| 12–16 December, 2011    | “Introduction to fish stock assessment models”, FAO MedSudMed Project, Sliema, Malta.                                                                                                                                                                     |
