EUROPEAN REFUGE/ES: CULTIVATING DIVERSITY TOGETHER

The Sharing Perspectives Foundation is a non-profit non-governmental organisation dedicated to providing students and academics from across the globe with an opportunity to collaboratively study contemporary themes.

EUROPEAN REFUGE/ES is an Erasmus+ Virtual Exchange programme that brings refugees and non-refugees together to explore how to create truly integrated societies in diverse countries where migration is part and parcel of economic and social life.

In this 10-week programme, we'll be tackling some controversial topics and big ideas related to integration such as identity, diversity and belonging from the perspectives of research, grassroots and personal experience.

You will have the opportunity to:

- ✓ Build '21C transversal skills' that improve your employability! Develop your confidence, resilience and ability to work in a virtual and intercultural environment;
- ✓ Interact with students from different countries, cultures and backgrounds including those with refugee and non-refugee experiences;
- ✓ Meet weekly in small, select seminar groups in a specially tailored virtual classroom;
- ✓ Discuss topical themes on identity, belonging, diversity and integration;
- ✓ Learn from expert academics and practitioners;
- ✓ Contribute to an European-wide Video Dialogue project;
- ✓ Gain an Erasmus+ digital Badge.
