# Invitation to an energy workshop at Reykjavik University

In the frame of the Erasmus K71 project between Reykjavik University and Montenegro University (Project period 2023-2026) RU would like to invite staff from the University of Montenegro to visit RU and participate in a workshop on sustainable energy development. Faculty members from civil engineering, mechanical engineering, forestry, and architecture are invited to apply for a fully funded Erasmus+ grant to visit RU in Iceland.

Topics that will be given priority:

- 1) Sustainable hydropower in Montenegro
- 2) Ocean current energy and Marine issues
- 3) Renewable energy development
- 4) Bioenergy sources

Tentative Time frame: 20 March to 22 March

Number of participants: 3

Participants are expected to prepare a short presentation on one of the topics above. The objective to the workshop is to identify topics for future student exchanges between the University of Montenegro and RU.

For academic information contact David Christian Finger, associate Professor in the Department of Engineering, [davidf@ru.is](mailto:davidf@ru.is)

For practical information (grants etc) contact Guðlaug M Jakobsdóttir, Director of the International Office, [gudlaugm@ru.is](mailto:gudlaugm@ru.is)
