

## **ISACC - Innovative Systems to Enhance Antifraud Customs Control**

### **ONLINE TRAINING FOR ECONOMIC OPERATORS** **18 and 22 November 2022** **h 10.00 - 12.00**

The EU co-funded project ISACC aims at defining information methodologies, models, processes and structures that can simplify and harmonize the introduction of **innovative approaches in the anti-fraud inspection and control phases** in **Italy, Albania and Montenegro**.

The online training will provide economic operators with information on e-customs procedures and customs freight controls to smooth exchanges between Italy, Albania and Montenegro.

**Participation is free of charge, prior registration to the [this link](#).**

Webinars will be held in **English, Italian, Albanian and Montenegrin**. You will select the preferred language when you access to the platform on 18 and 22 November.
