

## What do we do and why?

EURAXESS is a unique pan-European network with the goal to assist researchers in all questions regarding practicalities in a new country and their career planning.

- Core activity: information and support for mobility and career development of researchers
- Job vacancies, funding and hosting offers can be published by the organisations
- Be found and find organisations through EURAXESS database in business and academia.
- Policy goal behind: building an open, attractive, sustainable, common European labour market for researchers
