Welcome to Luxembourg

A committed start-up nation

Luxembourg, a multilingual country uniting **170 nationalities** in the heart of Europe, is not only a great place to do research. The reason it attracts talents from across the world is also due to its growing reputation as **a committed start-up nation**. Its ecosystem, comprised of a thriving community of **700 start ups**, counts several support-mechanisms for (prospective) founders and their companies. The small size of the country implies short distances, also to decision-makers; its multinational community makes it an ideal testbed for products and services across diverse communities; last but not least a dense infrastructure of sector-specific incubators and co-working spaces offers opportunities for relevant networking besides personalised support by Luxembourg's innovation agency.

During the **Start up Hub Tour Luxembourg**, you'll be attending presentations of key support mechanisms and infrastructures which might benefit your company in the future. You'll also visit incubators in two exciting locations within Luxembourg: **Belval Innovation Campus in Esch-sur-Alzette** - European Capital of Culture 2022 - and **Luxembourg City**, home to European institutions with its historical quarter and fortifications recognised as UNESCO World Heritage Sites.

Discover Luxembourg in 10 fact sheets

10 fact sheets about the Grand Duchy of Luxembourg aims to present and promote the country in a visual and playful manner. The document is divided into ten chapters: at a glance, history of the Grand Duchy, culture, population and languages, quality of life, politics and institutions, Luxembourg in the world, economy, import and export, innovation.

10 FACT SHEETS ABOUT THE GRAND DUCHY OF LUXEMBOURG
