

Ekonomski rast: konkurentnost i ekonomske slobode

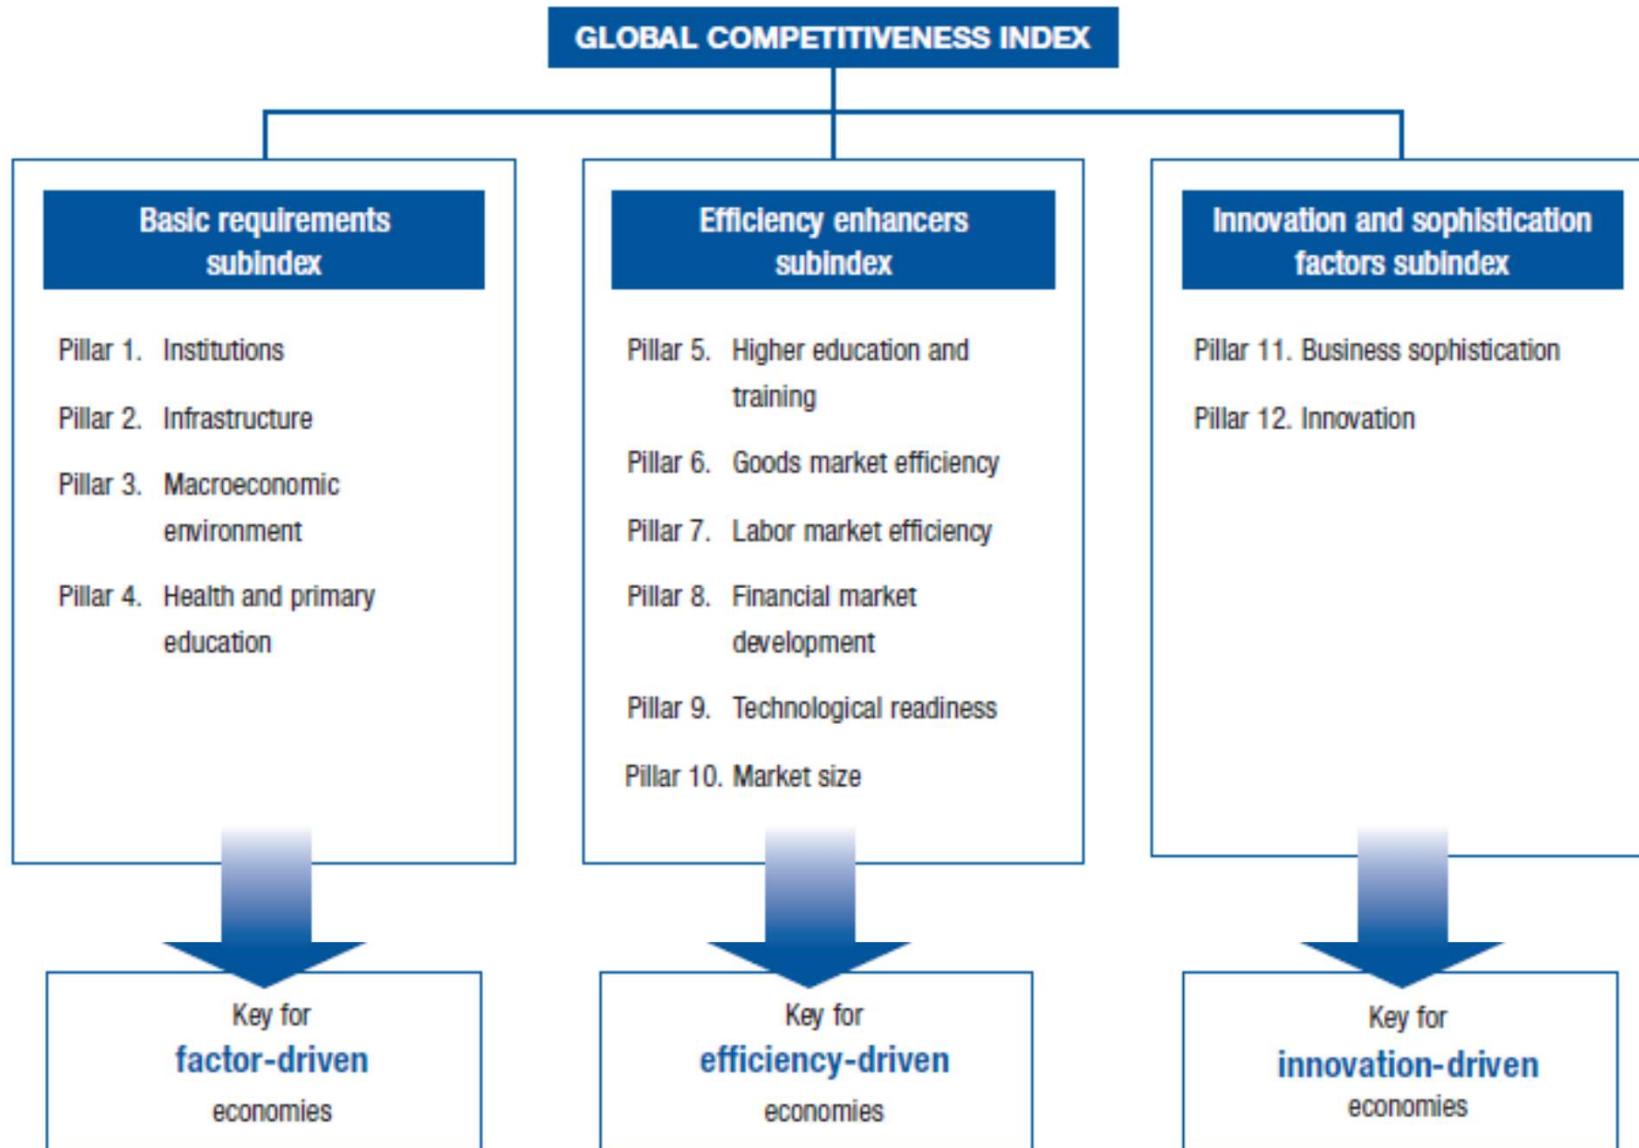

Prof. Maja Baćović

15.03.2019.

Determinante rasta

- ▶ Aktuelna istraživanja faktora rasta koje kontinuirano sprovodi Svjetski ekonomski forum (WEF), izvore rasta grupišu u tri kategorije:
 - ▶ Determinante značajne za ekonomije čiji je rast uslovjen korišćenjem faktora proizvodnje (institucije, infrastruktura, makroekonomska stabilnost i zdravstvo i osnovno obrazovanje);
 - ▶ Determinante koje utiču na rast preko rasta efektivnosti (visoko obrazovanje i obuka, efikasnost tržišta roba, efikasnost tržišta rada, finansijsko tržište, tehnološki razvoj i veličina tržišta);
 - ▶ Determinante koje putem inovacija podstiču rast (Inovacije (istraživanja i razvoj) i sofisticiranost poslovanja).

Figure 1: The Global Competitiveness Index framework

See Appendix A for the detailed structure of the GCI.

	STAGE OF DEVELOPMENT				
	Stage 1: Factor-driven	Transition from stage 1 to stage 2	Stage 2: Efficiency-driven	Transition from stage 2 to stage 3	Stage 3: Innovation-driven
GDP per capita (US\$) thresholds*	<2,000	2,000–2,999	3,000–8,999	9,000–17,000	>17,000
Weight for basic requirements	60%	40–60%	40%	20–40%	20%
Weight for efficiency enhancers	35%	35–50%	50%	50%	50%
Weight for innovation and sophistication factors	5%	5–10%	10%	10–30%	30%

Note: See individual economy profiles for exact applied weights.

* For economies with a high dependency on mineral resources, GDP per capita is not the sole criterion for the determination of the stage of development. See text for details.

INNOVATION CHALLENGES

The pace and disruptiveness of technological change are creating unprecedented opportunities and challenges that are set to be amplified by the convergence of digital, physical, and biological technologies that are characterizing the emerging Fourth Industrial Revolution.¹⁵

Ekonomске slobode

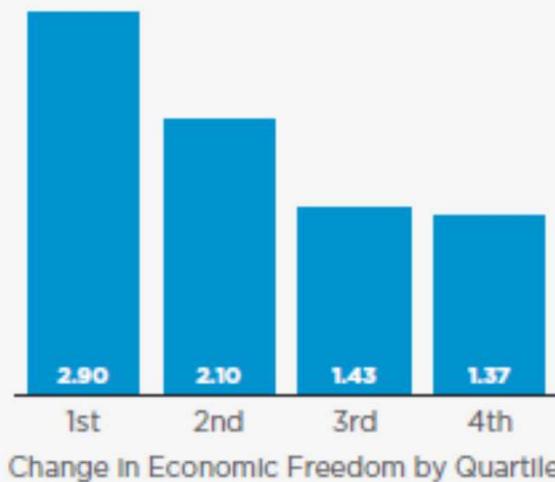

- ▶ Od 2012.godine, ekonomске slobode se grupišu u 4 kategorije:
 - ▶ Pravni sistem (svojinska prava, odsustvo korupcije)
 - ▶ Ograničenja državne administracije (fiskalna sloboda, budžetski rashodi)
 - ▶ Efikasnost regulatornog sistema (sloboda poslovanja, tržište rada, monetarna sloboda)
 - ▶ Otvorenost tržišta (sloboda trgovanja, investiranja i finansijskih transakcija)

WITH ECONOMIC FREEDOM COMES PROSPERITY AND MORE RAPID GROWTH

EUROPE: GDP PER CAPITA, BY ECONOMIC FREEDOM CATEGORY

MONTENEGRO

Montenegro's evolution into a modern, dynamic economy has made considerable gains. The trade regime is increasingly open, and the regulatory and legal frameworks governing investment and production have become more efficient, supporting the development of a growing private sector. Other previous reforms, which included further reduction of the already competitive flat tax rates and implementation of labor market reforms, have also contributed to an upsurge in entrepreneurship.

Despite the great strides made overall, Montenegro's economic freedom is still curtailed by the lack of institutional commitment to the strong protection of property rights or effective measures against corruption. The court system remains vulnerable to political interference and inefficiency.

12 ECONOMIC FREEDOMS | MONTENEGRO

RULE OF LAW

GOVERNMENT SIZE

Foreigners may own real property. Trademark and copyright violations are a significant problem in the outerwear and apparel markets; unlicensed software can easily be found on the general market. Politicization of the judiciary is a long-standing problem. Corruption is pervasive in health care, education, and all levels of government including law enforcement. Impunity, political favoritism, nepotism, and selective prosecutions are common.

REGULATORY EFFICIENCY

OPEN MARKETS
