Ciljevi izučavanja predmeta	The course aims to help students improve their abilities to read and understand legal texts in English, to increase their comprehension of spoken legal and academic English, to strengthen their speaking and presentation skills, and help them engage more effectively in a number of law-related discussions and interviews. Furthermore, it aims to assist students in developing some basic writing skills necessary both for their studies and future profession (such as note-taking and the basics of contract drafting), and, generally, to enrich their legal English vocabulary. To this end, a number of authentic texts, audio, and video materials are used accompanied by a range of communicative activities enabling better comprehension of the topic and use of legal terms as well as encouraging students to take an active part in class discussions and conduct additional research on their own.
